To all persons in the United States who were sent notification from Advance Stores Company, Inc. (i.e. Advance Auto Parts) that their Private Information was potentially compromised as a result of the Data Incident, a proposed class action settlement may affect your rights

In re: Snowflake, Inc. Data Security Breach Litigation
Case No.: 2:24-cv-03126 (D. Mont.)

This Settlement relates only to Defendant Advance Auto

Why am I receiving this Email Notice? You are receiving this Notice because the records of Advance Stores Company, Inc. (“Advance Auto” or “Defendant”) indicate that you may have been impacted by a Data Incident. On May 24, 2024, Defendant became aware that it was the victim of a data incident involving its cloud computing software company that housed Private Information belonging to Defendant’s employees and candidates for employment. On July 10, 2024, Defendant began notifying those who sought employment with Defendant, former employees and current employees that their information may have been involved in the Security Incident. You are therefore likely a Settlement Class Member eligible to receive Settlement Class Member Benefits under this Settlement. You are being notified because the Parties have agreed to resolve this matter whereby Advance Auto will pay \$10,000,000 into a non-reversionary common fund for the benefit of the Settlement Class. Defendant denies any wrongdoing whatsoever. The Court has not decided in favor of the Plaintiffs or the Defendant. Instead, Plaintiffs and Defendant have agreed to settle the Litigation. Plaintiff and the attorneys for the Settlement Class (“Class Counsel”) believe the Settlement is best for all Settlement Class Members because of the Settlement benefits and the risks and uncertainty associated with continued litigation and the nature of the defenses raised by the Defendant.

Who is a Settlement Class Member? You are affected by the Settlement and potentially a Settlement Class Member if you are a person in the United States whose Private Information was potentially compromised in the Data Incident and were sent notification from Advance Auto that your Private Information was potentially compromised as a result of the Data Incident.
