**Important Things to Know about Your Social Security Benefits**

- Social Security benefits are not intended to be your only source of retirement income. You may need other savings, investments, pensions, or retirement accounts to make sure you have enough money when you retire.
- You need at least 10 years of work (40 credits) to qualify for retirement benefits. Your benefit amount is based on your highest 35 years of earnings. If you have fewer than 35 years of earnings, years without work count as 0 and may reduce your benefit amount.
- If you get retirement or disability benefits, your spouse and children also may qualify for benefits.
- If you and your spouse both work, use the *my Social Security Retirement Calculator* to estimate spousal benefits.
- If you are divorced and were married for 10 years, you may be able to claim benefits on your ex-spouse's record.
- If you receive a pension from earnings not covered by Social Security, your benefits may have been reduced prior to January 2024. The *Social Security Fairness Act* ended the Windfall Elimination Provision and Government Pension Offset.
