UNITED STATES DISTRICT COURT
FOR THE WESTERN DISTRICT OF WASHINGTON
AT SEATTLE

In re MCG Health Data Security Issue Litigation

Case No. 2:22-cv-00849-RSM-DWC

**FIRST AMENDED CONSOLIDATED
CLASS ACTION COMPLAINT**

JURY TRIAL DEMANDED

Plaintiffs Diana Saiki, Kenneth Hensley, as legal guardian of R.H., Linda Crawford, Julie Mack, Linda Booth, Candace Daugherty, Leo Thorbecke, Cynthia Strecker, Michael Price, Blanca Garcia, Joanne Mullins, Marjorita Dean, Kelly Batt, Jay Taylor, Shelley Taylor, and Gaye Ictech (“Plaintiffs”) individually and on behalf of all others similarly situated, and by and through their undersigned counsel file this Consolidated Class Action Complaint against Defendant MCG Health, LLC (“MCG” or “Defendant”) and allege the following based upon personal knowledge of the facts, and upon information and belief based on the investigation of counsel as to all other matters.

I. NATURE OF THE ACTION

1. Defendant MCG Health is a healthcare consulting company that provides patient care guidelines and health plans that include care strategies, analytics, software solutions, and

1 other services to hospitals, government programs, and health plans across the country. In this
2 role, Defendant operates as a covered business associate as defined by the Health Insurance
3 Portability and Accountability Act (“HIPAA”) and is required to comply with HIPAA
4 regulations. *See* 45 CFR 160.103.

5 2. As a condition of receiving services, MCG’s client’s and their patients are
6 required to provide and entrust MCG with sensitive and private information, including
7 personally identifiable information (“PII”) and protected health information (“PHI”)
8 (collectively, “Private Information”). The PII and PHI that Defendant collects and maintains
9 includes, but is not limited to, patient names, genders, telephone numbers, addresses, email
10 addresses, dates of birth, Social Security numbers, and medical code information.

11 3. On June 10, 2022, MCG publicly disclosed that on March 25, 2022, it detected
12 that an unauthorized individual had obtained Private Information stored on MCG’s computer
13 network pertaining to approximately 1,100,000 persons (the “Data Breach”). Roughly two and
14 half months after discovering that criminals had obtained the Private Information of over a
15 million victims of the Data Breach, MCG began sending notice letters to States Attorneys
16 General, Plaintiffs, and Class Members (the “Notice”).

17 4. MCG’s Notice provided scant detail, particularly considering the size and scope
18 of the Data Breach and the sensitivity of Plaintiffs’ and Class Members’ compromised
19 information. MCG’s Notice stated, in relevant part, “that an unauthorized party previously
20 obtained certain of your personal information that matched data stored on MCG’s systems,” that
21 MCG “took steps to understand [the Data Breach’s] nature and scope,” and that MCG had
22 “deployed additional monitoring tools and will continue to enhance the security of our systems.”
23
24
25
26

1 5. MCG’s Notice did not disclose when the Data Breach began or how long
2 criminals had access to its systems, the means and mechanism of the cyberattack, the reason for
3 the two-and-a-half month delay in notifying Plaintiffs and the Class of the Data Breach, how
4 MCG determined that the Private Information had been “obtained,” and, importantly, what steps
5 MCG took following the Data Breach to secure its systems and prevent further cyberattacks.

6 6. MCG informed the Maine Attorney General that “the data may have been
7 acquired by an unauthorized party on or around February 25-26, 2020” but “there is uncertainty
8 regarding the date the breach occurred.”¹ That the Data Breach went undetected for over two
9 years by a sophisticated provider of data management services and software solutions to the
10 healthcare industry makes Defendant’s security failure all the more egregious.

11 7. The Data Breach was a direct result of Defendant’s failure to implement adequate
12 and reasonable cyber-security procedures and protocols necessary to protect patients’ and
13 employees’ Private Information from the foreseeable threat of a cyberattack.

14 8. By taking possession and control of Plaintiffs’ and Class Members’ Private
15 Information for its own pecuniary benefit, Defendant assumed a duty to securely store and
16 protect the Private Information in its custody from the risk of a cyber intrusion. Defendant also
17 had a duty to adequately safeguard this Private Information under industry standards and duties
18 imposed by statutes, including HIPAA regulations and Section 5 of the Federal Trade
19 Commission Act (“FTA Act”).

20 9. As a result of MCG’s failure to implement adequate data security practices,
21 Plaintiffs and over a million Class Members suffered injury and ascertainable losses in the form
22

23
24
25
26

¹ <https://apps.web.maine.gov/online/aeviewer/ME/40/1948d82a-0cdb-4b37-a988-b4189351176b.shtml>

1 of out-of-pocket expenses, loss of value of their time reasonably incurred to remedy or mitigate
2 the effects of the attack, the diminution in value of their personal information from its exposure,
3 and the present and imminent threat of fraud and identity theft.

4 10. The injury to Plaintiffs and Class Members was compounded by the fact that
5 Defendant did not notify patients that their Private Information was subject to unauthorized
6 access and exfiltration until June 10, 2022, nearly two-and-a-half months after the Data Breach
7 was discovered. Defendant's failure to timely notify the victims of its Data Breach meant that
8 Plaintiffs and Class Members were unable to take affirmative measures to prevent or mitigate the
9 resulting harm.
10

11 11. Despite having been accessed and exfiltrated by unauthorized criminal actors,
12 Plaintiffs' and Class Members' sensitive and confidential Private Information still remains in the
13 possession of Defendant. Absent additional safeguards and independent review and oversight,
14 the information remains vulnerable to further cyberattacks and theft.
15

16 12. Defendant disregarded the rights of Plaintiffs and Class Members by, *inter alia*,
17 failing to take adequate and reasonable measures to ensure its data systems were protected
18 against unauthorized intrusions; failing to disclose that it did not have adequately robust
19 computer systems and security practices to safeguard patient Private Information; failing to take
20 standard and reasonably available steps to prevent the Data Breach; failing to properly train its
21 staff and employees on proper security measures; and failing to provide Plaintiffs and Class
22 Members prompt and adequate notice of the Data Breach.
23
24
25
26

1 13. In addition, Defendant and its employees failed to properly monitor the computer
2 network and systems that housed the Private Information. Had Defendant properly monitored
3 these electronic systems, it would have discovered the intrusion sooner or prevented it altogether.

4 14. The security of Plaintiffs' and Class Members' identities is now at risk because of
5 Defendant's wrongful conduct as the Private Information that Defendant collected and
6 maintained is now in the hands of data thieves. This present risk will continue for their course of
7 their lives.

8 15. Armed with the Private Information accessed in the Data Breach, data thieves can
9 commit a wide range of crimes including, for example, opening new financial accounts in Class
10 Members' names, taking out loans in their names, using Class Members' identities to obtain
11 medical services, using Class Members' information to obtain government benefits, filing
12 fraudulent tax returns using their information, obtaining driver's licenses in Class Members'
13 names, and giving false information to police during an arrest.

14 16. As a result of the Data Breach, Plaintiffs and Class Members have been exposed
15 to a present and imminent risk of fraud and identity theft. Among other measures, Plaintiffs and
16 Class Members must now and in the future closely monitor their financial accounts and medical
17 records to guard against identity theft. Further, Plaintiffs and Class Members will incur out-of-
18 pocket costs to purchase credit monitoring and identity theft protection and insurance services,
19 credit freezes, credit reports, or other protective measures to deter and detect identity theft.

20 17. Plaintiffs and Class Members will also be forced to expend additional time to
21 review credit reports and monitor their financial accounts and medical records for fraud or
22 identity theft. And because the exposed information includes their Social Security numbers and
23
24
25
26

1 other immutable personal details, the risk of identity theft and fraud will persist throughout their
2 lives.

3 18. Through this action, Plaintiffs and Class Members seek to hold Defendant
4 responsible for the harms resulting from the massive and preventable disclosure of such sensitive
5 and personal information. Plaintiffs seek to remedy the harms resulting from the Data Breach on
6 behalf of themselves and all similarly situated individuals whose Private Information was
7 accessed and exfiltrated during the Data Breach.
8

9 19. Plaintiffs and Class Members thus seek actual damages, statutory damages,
10 restitution, and injunctive and declaratory relief (including significant improvements to
11 Defendant's data security protocols and employee training practices), reasonable attorney's fees,
12 costs, and expenses incurred in bringing this action, and all other remedies this Court deems just
13 and proper.
14

15 **II. THE PARTIES**

16 20. Plaintiff Diana Saiki is a resident and citizen of the State of Indiana.

17 21. Plaintiff Leo Thorbecke is a resident and citizen of the State of Indiana.

18 22. Plaintiff Kenneth Hensley, as legal guardian of R.H., is a resident and citizen of the
19 State of Indiana.

20 23. Plaintiff Michael Price is a resident and citizen of the State of Illinois.

21 24. Plaintiff Linda Crawford is a resident and citizen of the State of Kansas.

22 25. Plaintiff Kelly Batt is a resident and citizen of the State of California.

23 26. Plaintiff Shelley Taylor is a resident and citizen of the State of Kentucky.

24 27. Plaintiff Jay Taylor is a resident and citizen of the State of Kentucky.
25
26

1 28. Plaintiff Gaye Ictech is a resident and citizen of the State of Louisiana.

2 29. Plaintiff Cynthia Strecker is a resident and citizen of the State of Louisiana.

3 30. Plaintiff Candace Daugherty is a resident and citizen of the State of Mississippi.

4 31. Plaintiff Linda Booth is a resident and citizen of the State of New Mexico.

5 32. Plaintiff Blanca Garcia is a resident and citizen of the State of New Mexico.

6 33. Plaintiff Marjorita Dean is a resident and citizen of the State of Ohio.

7 34. Plaintiff Julie Mack is a resident and citizen of the State of Texas.

8 35. Plaintiff Joanne Mullins is a resident and citizen of the State of Texas.

9 36. Defendant MCG Health is a Washington limited liability company with its
10 principal place of business at 901 Fifth Avenue, Suite 120, Seattle, WA 98164.

11
12 **III. JURISDICTION AND VENUE**

13 37. This Court has subject matter jurisdiction pursuant to the Class Action Fairness
14 Act of 2005 (“CAFA”), 28 U.S.C. §1332(d). The amount in controversy exceeds the sum of
15 \$5,000,000 exclusive of interest and costs, there are more than one hundred putative class
16 members, and minimal diversity exists because many putative class members are citizens of a
17 different state than Defendant.

18
19 38. This Court has personal jurisdiction over Defendant because Defendant is
20 headquartered in this District and Defendant conducts substantial business in Washington and
21 this District through its headquarters and offices; engaged in the conduct at issue herein from and
22 within this District; and otherwise has substantial contacts with this District and purposely
23 availed itself of the Courts in this District.
24
25
26

1 39. Venue is proper in this District under 28 U.S.C. §§ 1391(a)(2), 1391(b)(2), and
2 1391(c)(2) as a substantial part of the events giving rise to the claims emanated from activities
3 within this District, and Defendant’s principal place of business is in this District.

4 **IV. FACTUAL ALLEGATIONS**

5 **A. Defendant is a HIPAA covered business associate.**

6 40. Defendant is a HIPAA covered business associate that provides software and
7 other services to various health care providers and health plans (i.e., HIPAA “Covered Entities”).
8 As a regular and necessary part of its business collects and custodies the highly sensitive Private
9 Information of its clients’ patients and health plan members. Defendant is required under federal
10 and state law to maintain the strictest confidentiality of the patient’s and plan members’ Private
11 Information that it requires, receives, and collects, and Defendant is further required to maintain
12 sufficient safeguards to protect that Private Information from being accessed by unauthorized
13 third parties.
14

15 41. As a HIPAA covered business entity, Defendant is required to enter into contracts
16 with its Covered Entities to ensure that it will implement adequate safeguards to prevent
17 unauthorized use or disclosure of Private Information, including by implementing requirements
18 of the HIPAA Security Rule² and to report to the Covered Entities any unauthorized use or
19 disclosure of Private Information, including incidents that constitute breaches of unsecured
20 protected health information as in the case of the Data Breach complained of herein.
21
22

23 _____
24 ² The HIPAA Security Rule establishes national standards to protect individuals’ electronic personal
25 health information that is created, received, used, or maintained by a covered entity. The Security Rule
26 requires appropriate administrative, physical, and technical safeguards to ensure the confidentiality,
integrity, and security of electronic protected health information. *See* 45 C.F.R. Part 160 and Part 164,
Subparts A and C.

1 42. As a condition of receiving Defendant’s services, Defendant requires that
2 Covered Entities and their patients and plan members, including Plaintiffs and Class Members,
3 entrust it with highly sensitive personal information. Due to the nature of Defendant’s business,
4 which includes providing patient care guidelines, health plans, consulting, analytics, and
5 software solutions, Defendant would be unable to engage in its regular business activities
6 without collecting and aggregating Private Information that it knows and understands to be
7 sensitive and confidential.
8

9 **B. The Data Breach compromised Private Information.**

10 43. On March 25, 2022, according to the Notice MCG provided to Plaintiffs and
11 Class Members, MCG determined that cybercriminals had gained unauthorized access to its
12 systems and “*obtained*” confidential personal information about patients and plan members
13 whose Private Information was stored on Defendant’s systems. As reflected by Defendant’s
14 disclosure of the Data Breach to the Maine Attorney General, Defendant was unable to
15 determine when its systems were actually compromised as Defendant acknowledged that “the
16 data may have been acquired by an unauthorized party on or around February 25-26, 2020” but
17 “there is uncertainty regarding the date the breach occurred.” Defendant’s lack of adequate data
18 security practices is evidenced by the fact that Defendant did not discover that its systems were
19 compromised for two years following the Data Breach.
20

21 44. In the letter sent to Plaintiffs and Class Members, two years after its systems were
22 compromised and two and a half months following its discovery of the Data Breach, Defendant
23 finally acknowledged, in a roundabout way, that:
24

25 an unauthorized party previously obtained certain of your personal information that
26 matched data stored on [MCG’s] systems. The affected patient or member data

1 included some or all of the following data elements: names, Social Security
2 numbers, medical codes,³ postal addresses, telephone numbers, email addresses,
3 dates of birth, and gender.⁴

4 45. Defendant's Notice letter also vaguely describes the measures it took following its
5 belated discovery of the Data Breach stating only that:

6 Upon learning of this issue, we took steps to understand its nature and scope. A
7 leading forensic investigation firm was retained to assist in the investigation.
8 Additionally, we are coordinating with the FBI. We have deployed additional
9 monitoring tools and will continue to enhance the security of our systems.

10 46. Tellingly, Defendant's Notice omits that fact that it was unable to determine when
11 its systems were first breached but that it believes the Data Breach to have occurred two years
12 earlier, on or about February 25 or 26 of 2020.

13 47. Defendant's Notice omits pertinent information including how long criminals had
14 access to its systems, the means and mechanism of the cyberattack, the reason for the two and a
15 half month delay in noticing Plaintiffs and Class Members of the Data Breach, how it determined
16 that the Private Information had been "obtained," why it us unable to determine when its systems
17 were first compromised, and of particular importance to Plaintiffs and Class Members, what
18 actual steps MCG took following the Data Breach to secure its systems and prevent further
19 cyberattacks.

20 48. Based on Defendant's acknowledgement that the Private Information that it
21 collected was "obtained" by cybercriminals, it is evident that unauthorized criminal actors did in
22 fact access Defendant's network and exfiltrate Plaintiffs' and Class Members' Private

23 _____
24 ³ Medical codes are alphanumeric designators used to document patient diagnoses, treatments, services,
25 and supplies provided to the patient and circumstances or medical conditions relevant to treatments and
26 services the patient receives.

⁴ https://www.mcg.com/wp-content/uploads/2022/06/MCG-Website-Notice_90273447_1-6.8.22481312.4-004.pdf.

1 Information in an attack designed to acquire that sensitive, confidential, and valuable
2 information.

3 49. The Private Information contained in the files accessed by cybercriminals appears
4 not to have been encrypted because if properly encrypted, the attackers would have acquired
5 unintelligible data and would not have “obtained” Plaintiffs and Class Members Private
6 Information.

7 50. As a HIPAA associated business entity that collects, creates, and maintains
8 significant volumes of Private Information, the targeted attack was a foreseeable risk of which
9 Defendant was aware and knew it had a duty to guard against.

10 51. The targeted attack was expressly designed to gain access to and exfiltrate private
11 and confidential data, including (among other things) the Private Information of patients and/or
12 plan members, like Plaintiffs and Class Members.

13 52. Despite failing to detect the Data Breach for more than two years after
14 Defendant’s systems were compromised, Defendant waited more than two months following the
15 completion of its investigation to notify the impacted individuals of the Data Breach and of the
16 need for them to protect themselves against fraud and identity theft. Defendant was, of course,
17 too late in the discovery and notification of the Data Breach.
18

19 53. Due to Defendant’s inadequate security measures and its delayed notice to
20 victims, Plaintiffs and Class Members now face a present, immediate, and ongoing risk of fraud
21 and identity theft and must deal with that threat forever.
22
23
24
25
26

1 54. Defendant had obligations created by HIPAA, contract, industry standards and
2 common law made to Plaintiffs and Class Members to keep their Private Information
3 confidential and to protect it from unauthorized access and disclosure.

4 55. Plaintiffs and Class Members entrusted their Private Information to Defendant's
5 clients with the reasonable expectation and mutual understanding that Defendant or anyone who
6 used their Private Information in conjunction with the healthcare services they received would
7 comply with obligations to keep such information confidential and secure from unauthorized
8 access after it received such information.

9 56. By obtaining, collecting, using, and deriving a benefit from Plaintiffs' and Class
10 Members' Private Information, Defendant assumed legal and equitable duties and knew or
11 should have known that it was responsible for protecting Plaintiffs' and Class Members' Private
12 Information from unauthorized disclosure.

13 57. Plaintiffs and the Class Members have taken reasonable steps to maintain the
14 confidentiality of their personal information. Plaintiffs and Class Members would not have
15 allowed Defendant or anyone in Defendant's position to receive their Private Information had
16 they known that Defendant would fail to implement industry standard protections for that
17 sensitive information.

18 58. As a result of Defendant's negligent and wrongful conduct, Plaintiffs' and Class
19 Members' highly confidential and sensitive Private Information was left exposed to
20 cybercriminals.
21
22
23
24
25
26

C. Defendant was obliged under HIPAA to safeguard the Private Information.

59. Defendant is a covered business associate under HIPAA (45 C.F.R. § 160.102) and is required to comply with the HIPAA Privacy Rule and Security Rule, 45 C.F.R. Part 160 and Part 164, Subparts A and E (“Standards for Privacy of Individually Identifiable Health Information”), and Security Rule (“Security Standards for the Protection of Electronic Protected Health Information”), 45 C.F.R. Part 160 and Part 164, Subparts A and C.

60. Defendant is subject to the rules and regulations for safeguarding electronic forms of medical information pursuant to the Health Information Technology Act (“HITECH”).⁵ See 42 U.S.C. §17921, 45 C.F.R. § 160.103.

61. HIPAA’s Privacy Rule or *Standards for Privacy of Individually Identifiable Health Information* establishes national standards for the protection of health information.

62. HIPAA’s Privacy Rule or *Security Standards for the Protection of Electronic Protected Health Information* establishes a national set of security standards for protecting health information that is kept or transferred in electronic form.

63. HIPAA requires “compl[iance] with the applicable standards, implementation specifications, and requirements” of HIPAA “with respect to electronic protected health information.” 45 C.F.R. § 164.302.

64. “Electronic protected health information” is “individually identifiable health information ... that is (i) transmitted by electronic media; maintained in electronic media.” 45 C.F.R. § 160.103.

65. HIPAA’s Security Rule requires Defendant to do the following:

⁵ HIPAA and HITECH work in tandem to provide guidelines and rules for maintaining protected health information. HITECH references and incorporates HIPAA.

- a. Ensure the confidentiality, integrity, and availability of all electronic protected health information the covered entity or business associate creates, receives, maintains, or transmits;
- b. Protect against any reasonably anticipated threats or hazards to the security or integrity of such information;
- c. Protect against any reasonably anticipated uses or disclosures of such information that are not permitted; and
- d. Ensure compliance by its workforce.

66. HIPAA also requires Defendant to “review and modify the security measures implemented ... as needed to continue provision of reasonable and appropriate protection of electronic protected health information.” 45 C.F.R. § 164.306(e). Additionally, Defendant is required under HIPAA to “[i]mplement technical policies and procedures for electronic information systems that maintain electronic protected health information to allow access only to those persons or software programs that have been granted access rights.” 45 C.F.R. § 164.312(a)(1).

67. HIPAA and HITECH also obligated Defendant to implement policies and procedures to prevent, detect, contain, and correct security violations, and to protect against uses or disclosures of electronic protected health information that are reasonably anticipated but not permitted by the privacy rules. *See* 45 C.F.R. § 164.306(a)(1) and § 164.306(a)(3); *see also* 42 U.S.C. §17902.

1 68. The HIPAA Breach Notification Rule, 45 C.F.R. §§ 164.400-414, also requires
2 Defendant to provide notice of the Data Breach to each affected individual “without
3 unreasonable delay and *in no case later than 60 days following discovery of the breach.*”⁶

4 69. HIPAA requires a covered entity to have and apply appropriate sanctions against
5 members of its workforce who fail to comply with the privacy policies and procedures of the
6 covered entity or the requirements of 45 C.F.R. Part 164, Subparts D or E. *See* 45 C.F.R. §
7 164.530(e).

8 70. HIPAA requires a covered entity to mitigate, to the extent practicable, any
9 harmful effect that is known to the covered entity of a use or disclosure of protected health
10 information in violation of its policies and procedures or the requirements of 45 C.F.R. Part 164,
11 Subpart E by the covered entity or its business associate. *See* 45 C.F.R. § 164.530(f).

12 71. HIPAA also requires the Office of Civil Rights (“OCR”), within the Department
13 of Health and Human Services (“HHS”), to issue annual guidance documents on the provisions
14 in the HIPAA Security Rule. *See* 45 C.F.R. §§ 164.302-164.318. For example, “HHS has
15 developed guidance and tools to assist HIPAA covered entities in identifying and implementing
16 the most cost effective and appropriate administrative, physical, and technical safeguards to
17 protect the confidentiality, integrity, and availability of e-PHI and comply with the risk analysis
18 requirements of the Security Rule.” US Department of Health & Human Services, Security Rule
19 Guidance Material.⁷ The list of resources includes a link to guidelines set by the National
20 Institute of Standards and Technology (NIST), which OCR says “represent the industry standard
21
22
23

24
25 ⁶ Breach Notification Rule, U.S. Dep’t of Health & Human Services, <https://www.hhs.gov/hipaa/for-professionals/breach-notification/index.html> (emphasis added).

26 ⁷ <http://www.hhs.gov/hipaa/for-professionals/security/guidance/index.html>.

1 for good business practices with respect to standards for securing e-PHI.” US Department of
2 Health & Human Services, Guidance on Risk Analysis.⁸

3 **D. Defendant failed to follow FTC guidelines.**

4 72. Defendant was also prohibited by the Federal Trade Commission Act (the “FTC
5 Act”) (15 U.S.C. § 45) from engaging in “unfair or deceptive acts or practices in or affecting
6 commerce.” The Federal Trade Commission (the “FTC”) has concluded that a company’s failure
7 to maintain reasonable and appropriate data security for consumers’ sensitive personal
8 information is an “unfair practice” in violation of the FTC Act. *See, e.g., FTC v. Wyndham*
9 *Worldwide Corp.*, 799 F.3d 236 (3d Cir. 2015).

10
11 73. The FTC has promulgated numerous guides for businesses which highlight the
12 importance of implementing reasonable data security practices.

13 74. According to the FTC, the need for data security should be factored into all business
14 decision-making.

15 75. In 2016, the FTC updated its publication, Protecting Personal Information: A
16 Guide for Business, which established cyber-security guidelines for businesses.

17 76. The guidelines note that businesses should protect the personal patient
18 information that they keep; properly dispose of personal information that is no longer needed;
19 encrypt information stored on computer networks; understand their network’s vulnerabilities;
20 and implement policies to correct any security problems.

21 77. The guidelines also recommend that businesses use an intrusion detection system
22 to expose a breach as soon as it occurs; monitor all incoming traffic for activity indicating
23

24
25
26 ⁸ <https://www.hhs.gov/hipaa/for-professionals/security/guidance/guidance-risk-analysis/index.html>

1 someone is attempting to hack the system; watch for large amounts of data being transmitted
2 from the system; and have a response plan ready in the event of a breach.

3 78. The FTC further recommends that companies not maintain Private Information
4 longer than is needed for authorization of a transaction; limit access to sensitive data; require
5 complex passwords to be used on networks; use industry-tested methods for security; monitor for
6 suspicious activity on the network; and verify that third-party service providers have
7 implemented reasonable security measures.
8

9 79. The FTC has brought enforcement actions against businesses for failing to
10 adequately and reasonably protect patient data, treating the failure to employ reasonable and
11 appropriate measures to protect against unauthorized access to confidential consumer data as an
12 unfair act or practice prohibited by Section 5 of the FTC Act, 15 U.S.C. § 45. Orders resulting
13 from these actions further clarify the measures businesses must take to meet their data security
14 obligations.
15

16 80. Defendant failed to properly implement basic data security practices.

17 81. Defendant's failure to employ reasonable and appropriate measures to protect
18 against unauthorized access to patients' and plan members Private Information constitutes an
19 unfair act or practice prohibited by Section 5 of the FTC Act, 15 U.S.C. § 45.
20

21 82. Defendant was at all times fully aware of its obligation to protect the Private
22 Information of the patients and plan members about whom it stored Private Information. Defendant
23 was also aware of the significant repercussions that would result from its failure to do so.
24
25
26

E. Defendant failed to comply with industry standards.

1
2
3
4
83. As described above, experts studying cyber security routinely identify healthcare providers and their business associates as being particularly vulnerable to cyberattacks because of the value of the PII and PHI which they collect and maintain.

5
6
7
8
9
10
84. Several best practices have been identified that at a minimum should be implemented by HIPAA covered business entities like Defendant, including but not limited to: educating all employees; strong passwords; multi-layer security, including firewalls, anti-virus, and anti-malware software; encryption, making data unreadable without a key; multi-factor authentication; backup data; and limiting which employees can access sensitive data.

11
12
13
14
15
16
17
85. Other best cybersecurity practices that are standard in the healthcare industry include installing appropriate malware detection software; monitoring and limiting the network ports; protecting web browsers and email management systems; setting up network systems such as firewalls, switches, and routers; monitoring and protection of physical security systems; protection against any possible communication system; and training staff regarding critical points.

18
19
20
21
22
23
24
25
26
86. Defendant failed to meet the minimum standards of any of the following frameworks: the NIST Cybersecurity Framework Version 1.1 (including without limitation PR.AC-1, PR.AC-3, PR.AC-4, PR.AC-5, PR.AC-6, PR.AC-7, PR.AT-1, PR.DS-1, PR.DS-5, PR.PT-1, PR.PT-3, DE.CM-1, DE.CM-4, DE.CM-7, DE.CM-8, and RS.CO-2), and the Center for Internet Security's Critical Security Controls (CIS CSC), which are all established standards in reasonable cybersecurity readiness.

1 87. These foregoing frameworks are existing and applicable industry standards in the
2 healthcare industry, and Defendant failed to comply with these accepted standards, thereby
3 opening the door to cybercriminals and causing the Data Breach.

4 **F. Defendant owed Plaintiffs and Class Members a duty to safeguard their Private**
5 **Information.**

6 88. In addition to its obligations under federal and state laws, Defendant owed a duty
7 to Plaintiffs and Class Members to exercise reasonable care in obtaining, retaining, securing,
8 safeguarding, deleting, and protecting the Private Information in its possession from being
9 compromised, lost, stolen, accessed, and misused by unauthorized persons. Defendant owed a
10 duty to Plaintiffs and Class Members to provide reasonable security, including consistency with
11 industry standards and requirements, and to ensure that its computer systems, networks, and
12 protocols adequately protected the Private Information of Class Members.

13 89. Defendant owed a duty to Plaintiffs and Class Members to create and implement
14 reasonable data security practices and procedures to protect the Private Information in its
15 possession, including adequately training its employees and others who accessed Private
16 Information within its computer systems on how to adequately protect Private Information.

17 90. Defendant owed a duty to Plaintiffs and Class Members to implement processes
18 that would detect a compromise of Private Information in a timely manner.
19

20 91. Defendant owed a duty to Plaintiffs and Class Members to act upon data security
21 warnings and alerts in a timely fashion.
22

23 92. Defendant owed a duty to Plaintiffs and Class Members to disclose in a timely
24 and accurate manner when and how the Data Breach occurred.
25
26

1 93. Defendant owed a duty of care to Plaintiffs and Class Members because they were
2 foreseeable and probable victims of any inadequate data security practices.

3 **G. The Data Breach and its consequences were readily foreseeable risks to MCG.**

4 94. Defendant's data security obligations were particularly important given the
5 substantial increase in cyberattacks and/or data breaches in the healthcare industry and other
6 industries holding significant amounts of PII and PHI preceding the date of the breach.

7 95. In 2021, a record 1,862 data breaches occurred, resulting in approximately
8 293,927,708 sensitive records being exposed, a 68% increase from 2020.⁹ Of the 1,862 recorded
9 data breaches, 330 of them, or 17.7% were in the medical or healthcare industry.¹⁰ The 330
10 reported breaches reported in 2021 exposed nearly 30 million sensitive records (28,045,658),
11 compared to only 306 breaches that exposed nearly 10 million sensitive records (9,700,238) in
12 2020.¹¹

13 96. In light of recent high profile cybersecurity incidents at other healthcare partner
14 and provider companies, including American Medical Collection Agency (25 million patients,
15 March 2019), University of Washington Medicine (974,000 patients, December 2018), Florida
16 Orthopedic Institute (640,000 patients, July 2020), Wolverine Solutions Group (600,000 patients,
17 September 2018), Oregon Department of Human Services (645,000 patients, March 2019), Elite
18 Emergency Physicians (550,000 patients, June 2020), Magellan Health (365,000 patients, April
19

25 at 6.

26 ¹⁰ *Id.*

¹¹ *Id.*

1 2020), and BJC Health System (286,876 patients, March 2020), Defendant knew or should have
2 known that its electronic records would be targeted by cybercriminals.

3 97. Indeed, cyberattacks against the healthcare industry have been common for over
4 ten years with the Federal Bureau of Investigation (“FBI”) warning as early as 2011 that
5 cybercriminals were “advancing their abilities to attack a system remotely” and “[o]nce a system
6 is compromised, cyber criminals will use their accesses to obtain PII.” The FBI further warned
7 that that “the increasing sophistication of cyber criminals will no doubt lead to an escalation in
8 cybercrime.”¹²

9
10 98. Cyberattacks have become so notorious that the FBI and U.S. Secret Service have
11 issued a warning to potential targets so they are aware of, and prepared for, a potential attack. As
12 one report explained, “[e]ntities like smaller municipalities and hospitals are attractive to
13 ransomware criminals... because they often have lesser IT defenses and a high incentive to
14 regain access to their data quickly.”¹³

15
16 99. In fact, according to the cybersecurity firm Mimecast, 90% of healthcare
17 organizations experienced cyberattacks in the past year.¹⁴

18 100. Defendant was on notice that the FBI has recently been concerned about data
19 security in the healthcare industry. In August 2014, after a cyberattack on Community Health
20 Systems, Inc., the FBI warned companies within the healthcare industry that hackers were
21

[ransomware](https://www.law360.arn-of-targeted-ransomware) (last visited July 2, 2021).

26 ¹⁴ See Maria Henriquez, *Iowa City Hospital Suffers Phishing Attack*, *Security Magazine* (Nov. 23, 2020),
<https://www.securitymagazine.com/articles/93988-iowa-city-hospital-suffers-phishing-attack>

1 targeting them. The warning stated that “[t]he FBI has observed malicious actors targeting
2 healthcare related systems, perhaps for the purpose of obtaining the Protected Healthcare
3 Information (PHI) and/or Personally Identifiable Information (PII).”¹⁵

4 101. The American Medical Association (“AMA”) has also warned healthcare
5 companies about the importance of protecting their patients’ confidential information:

6 Cybersecurity is not just a technical issue; it’s a patient safety issue. AMA research
7 has revealed that 83% of physicians work in a practice that has experienced some
8 kind of cyberattack. Unfortunately, practices are learning that cyberattacks not only
9 threaten the privacy and security of patients’ health and financial information, but
also patient access to care.¹⁶

10 102. As implied by the above AMA quote, stolen Private Information can be used to
11 interrupt important medical services. This is an imminent and certainly impending risk for
12 Plaintiffs and Class Members.

13 103. Defendant was on notice that the federal government has been concerned about
14 healthcare company data encryption practices. Defendant knew its employees accessed and
15 utilized protected health information in the regular course of their duties, yet it appears that
16 information was not encrypted.

17 104. The OCR urges the use of encryption of data containing sensitive personal
18 information. As long ago as 2014, the Department fined two healthcare companies
19 approximately two million dollars for failing to encrypt laptops containing sensitive personal
20 information.

1 information. In announcing the fines, Susan McAndrew, OCR’s deputy director of health
2 information privacy, stated “[o]ur message to these organizations is simple: encryption is your
3 best defense against these incidents.”¹⁷

4 105. As a HIPAA covered business associate, Defendant should have known about its
5 data security vulnerabilities and implemented enhanced and adequate protection, particularly
6 given the nature of the Private Information stored in its unprotected files.

7
8 **H. Data Breaches place Consumers at an immediate risk of fraud and identity theft.**

9 106. Plaintiffs’ and Class Members’ Private Information is of great value to cyber
10 criminals, and the data stolen in the Data Breach has been used and will continue to be used by
11 criminals to exploit Plaintiffs and the Class Members and to profit off the Private Information
12 stolen from Defendant in the Data Breach.

13 107. Each year, identity theft causes tens of billions of dollars of losses to victims in
14 the United States.¹⁸ For example, with the Private Information stolen in the Data Breach, which
15 includes Social Security numbers, identity thieves can open financial accounts, commit medical
16 fraud, apply for credit, file fraudulent tax returns, commit crimes, create false driver’s licenses
17 and other forms of identification and sell them to other criminals or undocumented immigrants,
18 steal government benefits, give breach victims’ names to police during arrests, and many other

statistic/facts-statistics-identity-theft-and-cybercrime](https://www.iii.org/fact-statistic/facts-statistics-identity-theft-and-cybercrime) (discussing Javelin Strategy & Research’s report
26 “2018 Identity Fraud: Fraud Enters a New Era of Complexity”).

1 harmful forms of identity theft.¹⁹ These criminal activities have and will result in devastating
2 financial and personal losses to Plaintiffs and Class Members.

3 108. Private Information is such a valuable commodity to identity thieves that once it
4 has been compromised, criminals will use it and trade the information on dark web black-
5 markets for years.²⁰

6 109. For example, it is believed that certain highly sensitive personal information
7 compromised in the 2017 Experian data breach was being used, three years later, by identity
8 thieves to apply for COVID-19-related unemployment benefits.²¹

9 110. The Private Information exposed in this Data Breach is valuable to identity
10 thieves for use in the kinds of criminal activity described herein. These risks are both certainly
11 impending and substantial. As the FTC has reported, if cyber thieves get access to a person's
12 highly sensitive information, they will use it.²²

13 111. Cyber criminals may not use the information right away. According to the U.S.
14 Government Accountability Office, which conducted a study regarding data breaches:
15

16 [I]n some cases, stolen data may be held for up to a year or more before being used
17 to commit identity theft. Further, once stolen data have been sold or posted on the
18 Web, fraudulent use of that information may continue for years. As a result, studies
19 that attempt to measure the harm resulting from data breaches cannot necessarily
20 rule out all future harm.²³

21 ¹⁹ See, e.g., Christine DiGangi, *5 Ways an Identity Thief Can Use Your Social Security Number*, Nov. 2,
22 2017, <https://blog.credit.com/2017/11/5-things-an-identity-thief-can-do-with-your-social-security-number-108597/>

23 ²⁰ *Data Breaches Are Frequent, but Evidence of Resulting Identity Theft Is Limited; However, the Full Extent Is Unknown*, GAO, July 5, 2007, <https://www.gao.gov/assets/270/262904.html>.

24 ²¹ See <https://www.engadget.com/stolen-data-used-for-unemployment-fraud-ring-174618050.html>; see also <https://www.wired.com/story/nigerian-scammers-unemployment-system-scattered-canary/>.

25 ²² Ari Lazarus, *How fast will identity thieves use stolen info?*, FED. TRADE COMM'N (May 24, 2017),
26 <https://www.consumer.ftc.gov/blog/2017/05/how-fast-will-identity-thieves-use-stolen-info>.

²³ *Data Breaches Are Frequent*, *supra* note 11.

1 112. For instance, with a stolen Social Security number, which is only one subset of
2 the Private Information compromised in the Data Breach, someone can open financial accounts,
3 get medical care, file fraudulent tax returns, commit crimes, and steal benefits.²⁴

4 113. Identity thieves can use Social Security numbers to obtain a driver's license or
5 official identification card in the victim's name but with the thief's picture; use the victim's
6 name and Social Security number to obtain government benefits; or file a fraudulent tax return
7 using the victim's information. In addition, identity thieves may obtain a job using the victim's
8 Social Security number, rent a house or receive medical services in the victim's name, and may
9 even give the victim's personal information to police during an arrest resulting in an arrest
10 warrant being issued in the victim's name.

11 114. Moreover, it is not an easy task to change or cancel a stolen Social Security
12 number. An individual cannot obtain a new Social Security number without significant
13 paperwork and evidence of actual misuse. Even then, a new Social Security number may not be
14 effective, as “[t]he credit bureaus and banks are able to link the new number very quickly to the
15 old number, so all of that old bad information is quickly inherited into the new Social Security
16 number.”

17 115. This data demands a much higher price on the black market. Martin Walter,
18 senior director at cybersecurity firm RedSeal, explained, “[c]ompared to credit card information,
19 personally identifiable information and Social Security Numbers are worth more than 10x on the
20 black market.”
21
22
23

24
25 ²⁴ See, e.g., Christine DiGangi, *5 Ways an Identity Thief Can Use Your Social Security Number*, Nov. 2,
26 2017, <https://blog.credit.com/2017/11/5-things-an-identity-thief-can-do-with-your-social-security-number-108597/>.

1 116. Medical information is especially valuable to identity thieves. According to
2 account monitoring company LogDog, coveted Social Security numbers were selling on the dark
3 web for just \$1 in 2016—the same as a Facebook account.²⁵ That pales in comparison with the
4 asking price for medical data, which was selling for \$50 and up.²⁶

5 117. Identity thieves can use the Private Information stolen from Plaintiffs and Class
6 Members to qualify for expensive medical care and leave them and their health insurers on the
7 hook for massive medical bills. Medical identity theft is one of the most common, most
8 expensive, and most difficult-to-prevent forms of identity theft. According to Kaiser Health
9 News, “medical-related identity theft accounted for 43 percent of all identity thefts reported in
10 the United States in 2013,” which is more than identity thefts involving banking and finance, the
11 government and the military, or education.²⁷ “Medical identity theft is a growing and dangerous
12 crime that leaves its victims with little to no recourse for recovery,” reported Pam Dixon,
13 executive director of World Privacy Forum. “Victims often experience financial repercussions
14 and worse yet, they frequently discover erroneous information has been added to their personal
15 medical files due to the thief’s activities.”²⁸

16 118. Fraud and identity theft resulting from the Data Breach may go undetected until
17 debt collection calls commence months, or even years, later. An individual may not know that
18 his or her Social Security Number was used to file for unemployment benefits until law
19
20
21

25 <https://khn.org/news/rise-of-indentity-theft/>

²⁸ *Id.*

1 enforcement notifies the individual’s employer of the suspected fraud. Fraudulent tax returns are
 2 typically discovered only when an individual’s authentic tax return is rejected.

3 119. A study by the Identity Theft Resource Center shows the multitude of harms
 4 caused by fraudulent use of personal and financial information.²⁹

17

18 120. Victims of the Data Breach, like Plaintiffs and Class Members, must spend many
 19 hours and large amounts of money protecting themselves from the current and future negative
 20 impacts to their privacy and credit because of the Data Breach.³⁰

21 121. As a direct and proximate result of the Data Breach, Plaintiffs and Class Members
 22 have been placed at an imminent, immediate, and continuing increased risk of harm from fraud
 23

24 ²⁹ See Jason Steele, Credit Card and ID Theft Statistics, CreditCards.com (Oct. 23, 2020) <https://www.creditcards.com/credit-card-news/credit-card-security-id-theft-fraud-statistics-1276.php>.

25 ³⁰ “Guide for Assisting Identity Theft Victims,” Federal Trade Commission, 4 (Sept. 2013),
 26 <http://www.consumer.ftc.gov/articles/pdf-0119-guide-assisting-id-theft-victims.pdf>.

1 and identity theft. Plaintiffs and Class Members must now take the time and effort (and spend
2 the money) to mitigate the actual and potential impact of the Data Breach on their everyday
3 lives, including purchasing identity theft and credit monitoring services every year for the rest of
4 their lives, placing “freezes” and “alerts” with credit reporting agencies, contacting their
5 financial institutions and healthcare providers, closing or modifying financial accounts, and
6 closely reviewing and monitoring bank accounts, credit reports, and health insurance account
7 information for unauthorized activity for years to come.
8

9 122. Plaintiffs and Class Members have suffered or will suffer actual harms for which
10 they are entitled to compensation, including but not limited to the following:

- 11 a. Trespass, damage to, and theft of their personal property, including Private
12 Information;
- 13 b. Improper disclosure of their Private Information;
- 14 c. The imminent and certainly impending injury flowing from actual and potential
15 future fraud and identity theft posed by their Private Information being in the
16 hands of criminals and having already been misused;
- 17 d. The imminent and certainly impending risk of having their confidential medical
18 information used against them by spam callers to defraud them;
- 19 e. Damages flowing from Defendant’s untimely and inadequate notification of the
20 Data Breach;
- 21 f. Loss of privacy suffered as a result of the Data Breach;
- 22 g. Ascertainable losses in the form of out-of-pocket expenses and the value of their
23 time reasonably expended to remedy or mitigate the effects of the data breach;
24
25
26

- 1 h. Ascertainable losses in the form of deprivation of the value of patients' personal
- 2 information for which there is a well-established and quantifiable national and
- 3 international market;
- 4 i. The loss of use of and access to their credit, accounts, and/or funds;
- 5 j. Damage to their credit due to fraudulent use of their Private Information; and
- 6 k. Increased cost of borrowing, insurance, deposits, and other items which are
- 7 adversely affected by a reduced credit score.
- 8

9 123. Moreover, Plaintiffs and Class Members have an interest in ensuring that their
10 Private Information, which remains in the possession of Defendant, is protected from further
11 public disclosure by the implementation of better employee training and industry standard and
12 statutorily compliant security measures and safeguards. Defendant has shown itself to be wholly
13 incapable of protecting Plaintiffs' and Class Members' Private Information.

14 124. Because of the value of its collected and stored data, the medical industry has
15 experienced disproportionately higher numbers of data theft events than other industries. For this
16 reason, Defendant knew or should have known about these dangers and strengthened its data
17 security accordingly. Defendant was put on notice of the substantial and foreseeable risk of harm
18 from a data breach, yet it failed to properly prepare for that risk.

19
20 **I. The Data Breach was foreseeable and preventable.**

21 125. Data disclosures and data breaches are preventable.³¹ As Lucy Thompson wrote
22 in the Data Breach and Encryption Handbook, "In almost all cases, the data breaches that
23

24
25

³¹ Lucy L. Thompson, "Despite the Alarming Trends, Data Breaches Are Preventable," *in* DATA BREACH
26 AND ENCRYPTION HANDBOOK (Lucy Thompson, ed., 2012).

1 occurred could have been prevented by proper planning and the correct design and
2 implementation of appropriate security solutions.”³² She added that “[o]rganizations that collect,
3 use, store, and share sensitive personal data must accept responsibility for protecting the
4 information and ensuring that it is not compromised”³³

5 126. “Most of the reported data breaches are a result of lax security and the failure to
6 create or enforce appropriate security policies, rules, and procedures . . . Appropriate information
7 security controls, including encryption, must be implemented and enforced in a rigorous and
8 disciplined manner so that a *data breach never occurs*.”³⁴

9 127. Plaintiffs and Class Members entrusted their Private Information to Defendant as
10 a condition of receiving healthcare related services from Defendant’s clients. Plaintiffs and Class
11 Members understood and expected that Defendant or anyone in Defendant’s position would
12 safeguard their PII and PHI against cyberattacks, delete or destroy Private Information that
13 Defendant was no longer required to maintain, and timely and accurately notify them if their
14 Private Information was compromised.

15
16
17 **J. Plaintiffs’ and Class Members damages.**

18 128. To date, Defendant has done nothing to provide Plaintiffs and Class Members
19 with relief for the damages they have suffered as a result of the Data Breach. Defendant has
20 merely offered Plaintiffs and Class Members identity protection and credit monitoring services
21 for two years, but this service does nothing to compensate them for damages incurred and time
22 spent dealing with the Data Breach. Moreover, following the expiration of the two-year
23

24
25 ³² *Id.* at 17.

³³ *Id.* at 28.

26 ³⁴ *Id.*

1 subscription, Plaintiffs and Class Members will be required to pay for credit monitoring services
2 out of their own pocket which they will require as the threat of identity theft and fraud does not
3 extinguish after a two-year period but persists for the remainder of Plaintiffs' and Class
4 Members' lives.

5 129. Plaintiffs and Class Members have been damaged by the compromise of their
6 Private Information in the Data Breach.

7 130. As a direct and proximate result of Defendant's conduct, Plaintiffs and Class
8 Members have been placed at an imminent, immediate, and continuing increased risk of harm
9 from fraud and identity theft. Plaintiffs and Class Members face substantial risk of out-of-pocket
10 fraud losses such as loans opened in their names, medical services billed in their names, tax
11 return fraud, utility bills opened in their names, credit card fraud, and similar identity theft.

12 131. Plaintiffs and Class Members face substantial risk of being targeted for future
13 phishing, data intrusion, and other illegal schemes based on their Private Information as potential
14 fraudsters could use that information to target such schemes more effectively to Plaintiffs and
15 Class Members.

16 132. Plaintiffs and Class Members have and will also incur out-of-pocket costs for
17 protective measures such as credit monitoring fees, credit report fees, credit freeze fees, and
18 similar costs directly or indirectly related to the Data Breach.

19 133. Plaintiffs and Class Members have suffered or will suffer actual injury as a direct
20 result of the Data Breach. Many victims suffered ascertainable losses in the form of out-of-
21 pocket expenses and the value of their time reasonably incurred to remedy or mitigate the effects
22 of the Data Breach relating to:
23
24
25
26

- a. Reviewing and monitoring financial and other sensitive accounts and finding fraudulent insurance claims, loans, and/or government benefits claims;
- b. Purchasing credit monitoring and identity theft prevention;
- c. Placing “freezes” and “alerts” with reporting agencies;
- d. Spending time on the phone with or at financial institutions, healthcare providers, and/or government agencies to dispute unauthorized and fraudulent activity in their name;
- e. Contacting financial institutions and closing or modifying financial accounts; and
- f. Closely reviewing and monitoring Social Security Number, medical insurance accounts, bank accounts, and credit reports for unauthorized activity for years to come.

134. Plaintiffs and Class Members suffered actual injury from having their Private Information compromised as a result of the Data Breach including, but not limited to: (a) damage to and diminution in the value of their Private Information, a form of property that MCG obtained from Plaintiffs and Class Members; (b) violation of their privacy rights; (c) imminent and impending injury arising from the increased risk of identity theft and fraud; and (d) emotional distress.

135. Further, as a result of Defendant’s conduct, Plaintiffs and Class Members are forced to live with the anxiety that their Private Information may be disclosed to the entire world, thereby subjecting them to embarrassment and depriving them of any right to privacy with respect to that information.

1 136. As a direct and proximate result of Defendant’s actions and inactions, Plaintiffs
2 and Class Members have suffered a loss of privacy and are at a present and imminent and
3 increased risk of future harm.

4 137. Moreover, Plaintiffs and Class Members have an interest in ensuring that their
5 Private Information, which is believed to remain in the possession of Defendant, is protected
6 from further breaches by the implementation of security measures and safeguards, including but
7 not limited to, making sure that the storage of data or documents containing Private Information
8 is not accessible online, is properly encrypted, and that access to such data is password protected.
9

10 138. Many failures laid the groundwork for the occurrence of the Data Breach, starting
11 with Defendant’s failure to incur the costs necessary to implement adequate and reasonable
12 cyber security training, procedures and protocols that were necessary to protect Plaintiff’s and
13 Class Members’ Private Information.

14 139. Defendant maintained the Private Information in an objectively reckless manner,
15 making the Private Information vulnerable to unauthorized disclosure.
16

17 140. Defendant knew, or reasonably should have known, of the importance of
18 safeguarding Private Information and of the foreseeable consequences that would result if
19 Plaintiffs’ and Class Members’ Private Information was stolen, including the significant costs
20 that would be placed on Plaintiffs and Class Members as a result of a breach.

21 141. The risk of improper disclosure of Plaintiffs’ and Class Members’ Private
22 Information was a known risk to Defendant, and thus Defendant was on notice that failing to
23 take necessary steps to secure Plaintiffs’ and Class Members’ Private Information from that risk
24 left the Private Information in a dangerous condition.
25
26

1 142. Defendant disregarded the rights of Plaintiffs and Class Members by, *inter alia*,
2 (i) intentionally, willfully, recklessly, or negligently failing to take adequate and reasonable
3 measures to ensure that the Private Information was protected against unauthorized intrusions;
4 (ii) failing to disclose that it did not have adequately robust security protocols and training
5 practices in place to adequately safeguard Plaintiffs' and Class Members' Private Information;
6 (iii) failing to take standard and reasonably available steps to prevent the Data Breach; (iv)
7 concealing the existence and extent of the Data Breach for an unreasonable duration of time; and
8 (v) failing to provide Plaintiffs and Class Members prompt and accurate notice of the Data
9 Breach.
10

11 **K. Plaintiffs' Experiences**

12 *Plaintiff Diana Saiki*

13 143. Plaintiff Saiki is a patient of IU Health, an Indiana University Health Affiliated
14 Covered Entity. She provided her personal and health information to IU Health in order to
15 receive medical services. MCG provides patient care guidelines to health care providers and
16 health plans, including IU Health. MCG received Plaintiff's personal and health information in
17 connection with providing those services to IU Health.
18

19 144. Plaintiff Saiki received a letter dated June 10, 2022 from MCG concerning the
20 Data Breach. The letter stated that an unauthorized party obtained Plaintiff Saiki's personal
21 information from data stored on MCG's systems. The compromised information includes names,
22 Social Security numbers, medical codes, postal addresses, telephone numbers, email addresses,
23 dates of birth, and gender.
24
25
26

1 145. In response to receiving the letter, Plaintiff Saiki has spent at least two hours
2 checking credit reports, financial accounts, and ordering a credit report.

3 146. Plaintiff Saiki paid for her medical services and medical insurance with the
4 expectation that her medical providers, medical insurance company, and its service providers,
5 like MCG, would keep her information secure and inaccessible from unauthorized parties.

6 147. Plaintiff Saiki suffers stress and anxiety as a result of the Data Breach and from
7 the loss of her privacy.
8

9 148. Plaintiff Saiki also suffered injury in the form of damage to and diminution in the
10 value of her confidential personal information—a form of property that Plaintiff entrusted to
11 MCG, which was compromised as a result of the Data Breach it failed to prevent.

12 149. Plaintiff Saiki suffers a present injury from the existing and continuing risk of
13 fraud, identity theft, and misuse resulting from her personal information—especially her Social
14 Security number and medical information—being placed in the hands of unauthorized third
15 parties. Plaintiff Saiki has a continuing interest in ensuring that her personal information is
16 protected and safeguarded from future breaches.
17

18 ***Plaintiff Leo Thorbecke***

19 150. Plaintiff Leo Thorbecke is a patient of IU Health, an Indiana University Health
20 Affiliated Covered Entity. Mr. Thorbecke provided his personal and health information to IU
21 Health in order to receive healthcare services. MCG provides patient care guidelines to Indiana
22 University Health Affiliated Covered Entities, and received Mr. Thorbecke's personal and health
23 information in connection with providing those services.
24
25
26

1 151. Plaintiff Thorbecke received a letter dated June 10, 2022 from MCG concerning
2 the Data Breach. The letter stated that an unauthorized party obtained his personal information
3 from data stored on MCG’s systems. The compromised information includes names, Social
4 Security numbers, medical codes, postal addresses, telephone numbers, email addresses, dates of
5 birth, and gender.

6 152. Since being notified of the Data Breach, Mr. Thorbecke has spent approximately
7 eight hours attempting to mitigate the impact of his stolen personal and medical information.
8

9 153. Plaintiff Thorbecke paid for medical services with the expectation that his
10 healthcare provider and its service providers, including MCG, would keep his information secure
11 and inaccessible from unauthorized parties.

12 154. Plaintiff Thorbecke suffers stress and frustration as a result of the Data Breach
13 and from the loss of his privacy.

14 155. Plaintiff Thorbecke also suffered injury in the form of damage to and diminution
15 in the value of his confidential personal information—a form of property that Plaintiff Thorbecke
16 entrusted to MCG, which was compromised as a result of the Data Breach it failed to prevent.
17

18 156. Plaintiff Thorbecke suffers a present injury from the existing and continuing risk
19 of fraud, identity theft, and misuse resulting from his personal information—especially his Social
20 Security number and medical information—being placed in the hands of unauthorized third
21 parties. Plaintiff Thorbecke has a continuing interest in ensuring that his personal information is
22 protected and safeguarded from future breaches.
23
24
25
26

Plaintiff Kenneth Hensley's minor child R.H.

1
2 157. Plaintiff Hensley received a letter from MCG Health dated June 10, 2022,
3 advising that his minor child R.H.'s information was acquired by cybercriminals in the Data
4 Breach. The letter advised that the information of R.H.'s that has been compromised in the Data
5 Breach includes some or all of the following PII and PHI: name, Social Security number, date of
6 birth, medical codes, postal address, telephone numbers, email addresses, and gender.

7
8 158. As required in order to obtain medical services, Plaintiff Hensley provided R.H.'s
9 highly sensitive personal and health information, including the Private Information that was
10 compromised in the Data Breach.

11 159. Because of Defendant's negligence and failure to properly secure the Private
12 Information in its possession, which negligence and failure led to the Data Breach, R.H.'s Private
13 Information has been obtained by cybercriminals.

14 160. Plaintiff Hensley has received alerts through Experian that the phone number
15 associated with R.H. was found on the dark web on February 4, 2022 and June 17, 2022.

16
17 161. R.H. is now under an imminent risk of subsequent identity theft and fraud and
18 will remain under such risk for the rest of R.H.'s life. The imminent risk of identity theft and
19 fraud R.H. now faces is substantial, certainly impending, continuous, and ongoing because of the
20 negligence of Defendant in its failure to implement adequate data security protocols, which
21 negligence led to the Data Breach.

22 162. As a result of the Data Breach, Plaintiff Hensley has already expended time and
23 suffered loss of productivity from taking time to address and attempt to ameliorate, mitigate, and
24 address the future consequences of the Data Breach for R.H., including investigating the Data
25
26

1 Breach, investigating how best to ensure that R.H. is protected from identity theft, and securing
2 identity theft protection services for R.H.

3 163. As a direct and proximate result of the Data Breach, Plaintiff Hensley will need to
4 pay for identity theft protection for the rest of R.H.'s lifetime.

5 164. Plaintiff Hensley suffers stress and anxiety as a result of the Data Breach and
6 from the loss of his minor child's privacy

7 165. R.H. has suffered additional injury directly and proximately caused by the Data
8 Breach, including damages and diminution in the value of R.H.'s Private Information that was
9 entrusted to Defendant for the sole purpose of obtaining medical services necessary for R.H.'s
10 health and well-being, with the understanding that Defendant would safeguard this information
11 against unauthorized disclosure. Additionally, R.H.'s Private Information is at continued risk of
12 compromise and unauthorized disclosure as it remains in the possession of Defendant and is
13 subject to future wrongful disclosures and/or security breaches so long as Defendant fails to
14 undertake appropriate and adequate measures, including the implementation of enhanced
15 employee training and data security protocols, to protect it.
16
17

18 ***Plaintiff Michael Price***

19 166. Plaintiff Price was a patient of IU Health, an Indiana University Health Affiliated
20 Covered Entity. Plaintiff Price provided his personal and health information to IU Health in
21 order to receive medical services. MCG provides patient care guidelines to IU Health and
22 received Plaintiff Price's personal and health information in connection with providing those
23 services.
24
25
26

1 167. Plaintiff Price received a letter in June 2022 from MCG concerning the Data
2 Breach. The letter stated that an unauthorized party obtained Plaintiff Price’s Private Information
3 from data stored on MCG’s systems. The compromised information includes names, Social
4 Security numbers, medical codes, postal addresses, telephone numbers, email addresses, dates of
5 birth, and gender.

6 168. Plaintiff Price paid for medical services with the expectation that his healthcare
7 provider and its service providers, like MCG, would keep his information secure and
8 inaccessible from unauthorized parties.

9 169. Plaintiff Price suffers stress and anxiety as a result of the Data Breach and from
10 the loss of his privacy.

11 170. Plaintiff Price also suffered injury in the form of damage to and diminution in the
12 value of his confidential personal information—a form of property that Plaintiff Price entrusted
13 to MCG, which was compromised as a result of the Data Breach it failed to prevent.

14 171. Plaintiff Price estimates that he spent approximately 10 hours researching the
15 Data Breach, scrutinizing his accounts, examining his records and credit scores and otherwise
16 addressing the Data Breach.

17 172. Plaintiff Price suffers a present injury from the existing and continuing risk of
18 fraud, identity theft, and misuse resulting from his personal information—especially his Social
19 Security number and medical information—being placed in the hands of unauthorized third
20 parties. Plaintiff Price has a continuing interest in ensuring that his personal information is
21 protected and safeguarded from future breaches.
22
23
24
25
26

Plaintiff Linda Crawford

1
2 173. Plaintiff Crawford is a member of Medicare Advantage through Aetna and
3 obtained medical care through Newman Regional Health in Burlington, KS. Plaintiff Crawford
4 provided her personal and health information to Aetna and Newman Regional Health in order to
5 receive health insurance and medical care. MCG provides patient care guidelines to Aetna and
6 Newman Regional Health, and received Plaintiff Crawford's personal and health information in
7 connection with providing those services.
8

9 174. Plaintiff Crawford received a letter from MCG concerning the Data Breach. The
10 letter stated that an unauthorized party obtained Plaintiff Crawford's personal information from
11 data stored on MCG's systems. The compromised information includes names, Social Security
12 numbers, medical codes, postal addresses, telephone numbers, email addresses, dates of birth,
13 and gender.
14

15 175. In or around late 2021 or early 2022, Plaintiff Crawford experienced identity theft
16 and credit fraud when loans were opened in her name. Plaintiff Crawford also received a fraud
17 alert on August 30, 2022. As a result, Plaintiff Crawford's credit rating fell 80 points, and
18 Plaintiff Crawford purchased credit monitoring. Plaintiff Crawford has spent at least 20 hours
19 disputing the fraudulent accounts and reviewing account statements, credit reports, and
20 monitoring services since the Data Breach.
21

22 176. Plaintiff Crawford had not experienced any instances of identity theft, fraud, or
23 credit fraud before February 2020 and has not received notification from any other company that
24 her personal information may have been exposed.
25
26

1 177. Plaintiff Crawford paid for medical services and health insurance with the
2 expectation that Aetna and Newman Regional Health and their service providers, like MCG,
3 would keep her information secure and inaccessible from unauthorized parties.

4 178. Plaintiff Crawford suffers stress and anxiety as a result of the Data Breach and
5 from the loss of her privacy.

6 179. Plaintiff Crawford also suffered injury in the form of damage to and diminution in
7 the value of her confidential personal information—a form of property that Plaintiff entrusted to
8 MCG, which was compromised as a result of the Data Breach it failed to prevent.

9 180. Plaintiff Crawford suffers a present injury from the existing and continuing risk of
10 fraud, identity theft, and misuse resulting from her personal information—especially her Social
11 Security number and medical information—being placed in the hands of unauthorized third
12 parties. Plaintiff has a continuing interest in ensuring that her personal information is protected
13 and safeguarded from future breaches.

14
15 ***Plaintiff Kelly Batt***

16 181. Plaintiff Batt is a patient of Centinela Hospital Medical Center. Plaintiff Batt
17 provided her personal and health information to Centinela Hospital Medical Center in order to
18 receive medical services. MCG provides patient care guidelines to Centinela Hospital Medical
19 Center, and received Plaintiff Batt’s personal and health information in connection with
20 providing those services.

21 182. Plaintiff Batt received a letter dated June 10, 2022 from MCG concerning the
22 Data Breach. The letter stated that an unauthorized party obtained Plaintiff Batt’s personal
23 information from data stored on MCG’s systems. The compromised information includes names,
24
25
26

1 Social Security numbers, medical codes, postal addresses, telephone numbers, email addresses,
2 dates of birth, and gender.

3 183. Plaintiff Batt obtained medical services with the expectation that Centinela
4 Hospital Medical Center and its service providers, like MCG, would keep her information secure
5 and inaccessible from unauthorized parties.

6 184. Plaintiff Batt suffers stress, anxiety, and frustration as a result of the Data Breach
7 and from the loss of her privacy.
8

9 185. Plaintiff Batt has already expended time to address the Data Breach and to
10 attempt to ameliorate and mitigate the future consequences of the Data Breach, including
11 investigating the Data Breach and options for how to protect her interests in response to the Data
12 Breach.

13 186. Plaintiff Batt also suffered injury in the form of damage to and diminution in the
14 value of her confidential personal information—a form of property that Plaintiff Batt entrusted to
15 MCG, which was compromised as a result of the Data Breach it failed to prevent.

16 187. Plaintiff Batt suffers a present injury from the existing and continuing risk of
17 fraud, identity theft, and misuse resulting from her personal information—especially her Social
18 Security number and medical information—being placed in the hands of unauthorized third
19 parties. Plaintiff has a continuing interest in ensuring that her personal information is protected
20 and safeguarded from future breaches.
21

22 ***Plaintiff Shelley Taylor***

23 188. Plaintiff Shelley Taylor is a patient of Catholic Health Initiative. Patient Shelley
24 Taylor provided her personal and health information to Catholic Health Initiative in order to
25
26

1 receive medical services. MCG provides patient care guidelines to Catholic Health Initiative and
2 received Plaintiff Shelley Taylor's personal and health information in connection with providing
3 those services.

4 189. Plaintiff Shelley Taylor received a letter dated June 10, 2022 from MCG
5 concerning the Data Breach. The letter stated that an unauthorized party obtained Plaintiff
6 Shelley Taylor's personal information from data stored on MCG's systems. The compromised
7 information includes names, Social Security numbers, medical codes, postal addresses, telephone
8 numbers, email addresses, dates of birth, and gender.

9
10 190. In response to the Data Breach, Plaintiff Shelley Taylor spent approximately 15
11 hours searching the Internet for information about the Data Breach, signing up for credit
12 monitoring, searching for credit monitoring services, changing passwords, and checking
13 financial accounts for potential fraud.

14 191. Plaintiff Shelley Taylor paid for medical services with the expectation that
15 Catholic Health Initiative and its service providers, like MCG, would keep her information
16 secure and inaccessible from unauthorized parties.

17 192. Plaintiff Shelley Taylor suffers stress and anxiety as a result of the Data Breach
18 and from the loss of her privacy.

19 193. Plaintiff Shelley Taylor also suffered injury in the form of damage to and
20 diminution in the value of her confidential personal information—a form of property that
21 Plaintiff Shelley Taylor entrusted to MCG, which was compromised as a result of the Data
22 Breach it failed to prevent.
23
24
25
26

1 194. Plaintiff Shelley Taylor suffers a present injury from the existing and continuing
2 risk of fraud, identity theft, and misuse resulting from her personal information—especially her
3 Social Security number and medical information—being placed in the hands of unauthorized
4 third parties. Plaintiff has a continuing interest in ensuring that her personal information is
5 protected and safeguarded from future breaches.

6 ***Plaintiff Jay Taylor***

7 195. Plaintiff Jay Taylor is a patient of Catholic Health Initiative. Patient Jay Taylor
8 provided his personal and health information to Catholic Health Initiative in order to receive
9 medical services. MCG provides patient care guidelines to Catholic Health Initiative and
10 received Plaintiff's personal and health information in connection with providing those services.

11 196. Plaintiff Taylor received a letter dated June 10, 2022 from MCG concerning the
12 Data Breach. The letter stated that an unauthorized party obtained Plaintiff's personal
13 information from data stored on MCG's systems. The compromised information includes names,
14 Social Security numbers, medical codes, postal addresses, telephone numbers, email addresses,
15 dates of birth, and gender.

16 197. In response to the Data Breach, Plaintiff Taylor spent approximately 12 hours
17 searching the Internet for information about the Data Breach, attempting to get on the Experian
18 website to sign up for credit monitoring, searching for credit monitoring services, changing
19 passwords, and checking financial accounts for potential fraud.

20 198. Plaintiff Taylor paid for medical services with the expectation that Catholic
21 Health Initiative and its service providers, like MCG, would keep his information secure and
22 inaccessible from unauthorized parties.

1 199. Plaintiff Taylor suffers stress and anxiety as a result of the Data Breach and from
2 the loss of his privacy.

3 200. Plaintiff Taylor also suffered injury in the form of damage to and diminution in
4 the value of his confidential personal information—a form of property that Plaintiff entrusted to
5 MCG, which was compromised as a result of the Data Breach it failed to prevent.

6 201. Plaintiff Taylor suffers a present injury from the existing and continuing risk of
7 fraud, identity theft, and misuse resulting from his personal information—especially his Social
8 Security number and medical information—being placed in the hands of unauthorized third
9 parties. Plaintiff has a continuing interest in ensuring that his personal information is protected
10 and safeguarded from future breaches.

11
12 ***Plaintiff Gaye Ictech***

13 202. Upon information and belief, Plaintiff Ictech is a patient of healthcare provider,
14 health insurance company, or health plan that utilizes MCG’s services. Plaintiff Ictech provided
15 her personal and health information to the MCG affiliated healthcare provider, health insurance
16 company, or health plan in order to receive medical services and/or health insurance. MCG
17 received Plaintiff Ictech’s personal and health information in connection with providing its
18 services to one of more of Plaintiff Ictech’s health providers, health plan, or health insurance
19 company.

20
21 203. Plaintiff Ictech received a letter dated June 10, 2022 from MCG concerning the
22 Data Breach. The letter stated that an unauthorized party obtained Plaintiff Ictech’s personal
23 information from data stored on MCG’s systems. The compromised information includes names,
24
25
26

1 Social Security numbers, medical codes, postal addresses, telephone numbers, email addresses,
2 dates of birth, and gender.

3 204. In response to the letter, Plaintiff Ictech has spent approximately twenty (20)
4 hours addressing the Data Breach, signing up for the offered credit monitoring service, and
5 searching for fraudulent activity on financial accounts. Moreover, Plaintiff Ictech experienced an
6 increase in targeted and suspicious spam calls that caused additional loss of time and annoyance.

7
8 205. Furthermore, in March, 2021 and March 2022, Plaintiff Ictech experienced
9 multiple fraudulent charges on her debit card, which she then had to cancel in response to the
10 fraud. This card was provided to and used to pay for health services and health insurance
11 premiums prior to the Data Breach.

12 206. Plaintiff Ictech paid for medical services and health insurance with the
13 expectation that healthcare provider and insurer and its service providers, like MCG, would keep
14 her information secure and inaccessible from unauthorized parties.

15
16 207. Plaintiff Ictech suffers stress and anxiety as a result of the Data Breach and from
17 the loss of her privacy.

18 208. Plaintiff Ictech also suffered injury in the form of damage to and diminution in the
19 value of her confidential personal information—a form of property that Plaintiff entrusted to
20 MCG, which was compromised as a result of the Data Breach it failed to prevent.

21 209. Plaintiff Ictech suffers a present injury from the existing and continuing risk of
22 fraud, identity theft, and misuse resulting from her personal information—especially her Social
23 Security number and medical information—being placed in the hands of unauthorized third
24
25
26

1 parties. Plaintiff Ictech has a continuing interest in ensuring that her personal information is
2 protected and safeguarded from future breaches.

3 ***Plaintiff Cynthia Strecker***

4 210. Plaintiff Strecker is a patient of healthcare provider, health insurance company, or
5 health plan that utilizes MCG's services. Plaintiff Strecker provided her personal and health
6 information to the MCG affiliated healthcare provider, health insurance company, or health in
7 order to receive medical services and/or health insurance. MCG received Plaintiff Strecker's
8 personal and health information in connection with providing its services to one of more of
9 Plaintiff Strecker's health providers, health plan, or health insurance company.
10

11 211. Plaintiff Strecker received a letter dated June 10, 2022 from MCG concerning the
12 Data Breach. The letter stated that an unauthorized party obtained Plaintiff Strecker's personal
13 information from data stored on MCG's systems. The compromised information includes names,
14 Social Security numbers, medical codes, postal addresses, telephone numbers, email addresses,
15 dates of birth, and gender.
16

17 212. In response to receiving the letter from MCG, Plaintiff Strecker spent
18 approximately five hours of time researching the Data Breach, and reviewing financial accounts.

19 213. Plaintiff Strecker paid for medical services and health insurance with the
20 expectation that healthcare provider and medical insurer and their respective service providers,
21 like MCG, would keep her information secure and inaccessible from unauthorized parties.
22

23 214. Plaintiff Strecker suffers stress and anxiety as a result of the Data Breach and
24 from the loss of her privacy.
25
26

1 215. Plaintiff Strecker also suffered injury in the form of damage to and diminution in
2 the value of her confidential personal information—a form of property that Plaintiff Strecker
3 entrusted to MCG, which was compromised as a result of the Data Breach it failed to prevent.

4 216. Plaintiff Strecker suffers a present injury from the existing and continuing risk of
5 fraud, identity theft, and misuse resulting from her personal information—especially her Social
6 Security number and medical information—being placed in the hands of unauthorized third
7 parties. Plaintiff has a continuing interest in ensuring that her personal information is protected
8 and safeguarded from future breaches.
9

10 ***Plaintiff Candace Daugherty***

11 217. Plaintiff Daugherty is a patient of Southern Surgery Center and Plaintiff's health
12 insurance provider is Blue Cross Blue Shield. Plaintiff Daugherty provided her personal and
13 health information to Southern Surgery Center and Blue Cross Blue Shield in order to receive
14 medical services and health insurance. MCG provides patient care guidelines to Southern
15 Surgery Center and Blue Cross Blue Shield, and received Plaintiff Daugherty's personal and
16 health information in connection with providing those services.
17

18 218. Plaintiff Daugherty received a letter dated June 10, 2022 from MCG concerning
19 the Data Breach. The letter stated that an unauthorized party obtained Plaintiff Daugherty's
20 personal information from data stored on MCG's systems. The compromised information
21 includes names, Social Security numbers, medical codes, postal addresses, telephone numbers,
22 email addresses, dates of birth, and gender.
23

24 219. Since the Data Breach, Plaintiff Daugherty experienced attempted identity theft
25 and credit fraud when hackers attempted to log into her bank account and credit union account.
26

1 Plaintiff Daugherty found two unauthorized charges on her bank account. An unauthorized
2 person also attempted to create an eBay account under Plaintiff Daugherty's name multiple
3 times. Plaintiff Daugherty must constantly reset her email password because of failed log in
4 attempts from unknown individuals.

5 220. Plaintiff Daugherty paid for medical services and health insurance with the
6 expectation that they and their service providers, like MCG, would keep her information secure
7 and inaccessible from unauthorized parties.
8

9 221. Plaintiff Daugherty suffers stress and anxiety as a result of the Data Breach and
10 from the loss of her privacy.

11 222. Plaintiff Daugherty also suffered injury in the form of damage to and diminution
12 in the value of her confidential personal information—a form of property that Plaintiff
13 Daugherty entrusted to MCG, which was compromised as a result of the Data Breach it failed to
14 prevent.
15

16 223. Plaintiff Daugherty suffers a present injury from the existing and continuing risk
17 of fraud, identity theft, and misuse resulting from her personal information—especially her
18 Social Security number and medical information—being placed in the hands of unauthorized
19 third parties. Plaintiff Daugherty has a continuing interest in ensuring that her personal
20 information is protected and safeguarded from future breaches.
21

22 ***Plaintiff Linda Booth***

23 224. Plaintiff Booth is a member of Christus Health Plan. Plaintiff Booth provided her
24 personal and health information to Christus Health Plan in order to receive health insurance.
25
26

1 MCG provides patient care guidelines to Christus Health Plan and received Plaintiff Booth's
2 personal and health information in connection with providing those services.

3 225. Plaintiff Booth received a letter dated June 10, 2022 from MCG concerning the
4 Data Breach. The letter stated that an unauthorized party obtained Plaintiff Booth's personal
5 information from data stored on MCG's systems. The compromised information includes names,
6 Social Security numbers, medical codes, postal addresses, telephone numbers, email addresses,
7 dates of birth, and gender.

8
9 226. Plaintiff Booth paid for health insurance with the expectation that Christus Health
10 Plan and its service providers, like MCG, would keep her information secure and inaccessible
11 from unauthorized parties.

12 227. As a result of the Data Breach, Plaintiff Booth upgraded her Norton identity theft
13 protection subscription.

14 228. Plaintiff Booth estimates she spent nearly 40 hours investigating and otherwise
15 addressing the Data Breach, including researching the breach, placing freezes on her credit
16 report, contacting Social Security to lock her social security number, and reviewing her credit
17 reports thoroughly.

18
19 229. Plaintiff Booth suffers stress and anxiety as a result of the Data Breach and from
20 the loss of her privacy and she worries about criminals having access to her medical information.

21 230. Plaintiff Booth also suffered injury in the form of damage to and diminution in the
22 value of her confidential personal information—a form of property that Plaintiff Booth entrusted
23 to MCG, which was compromised as a result of the Data Breach it failed to prevent.
24
25
26

1 231. Plaintiff Booth suffers a present injury from the existing and continuing risk of
2 fraud, identity theft, and misuse resulting from her personal information—especially her Social
3 Security number and medical information—being placed in the hands of unauthorized third
4 parties. Plaintiff has a continuing interest in ensuring that her personal information is protected
5 and safeguarded from future breaches.

6 ***Plaintiff Blanca Garcia***

7 232. Plaintiff Garcia was a patient of El Paso Specialty Hospital (“El Paso”). Plaintiff
8 Garcia provided her personal and health information to in order to receive medical services.
9 MCG provides patient care guidelines to El Paso and received Plaintiff Garcia’s personal and
10 health information in connection with providing those services.
11

12 233. Plaintiff Garcia received a letter dated June 3rd, 2022 from Surgery Partners, a
13 former affiliate of El Paso, concerning the Data Breach. The letter stated that an unauthorized
14 party obtained Plaintiff Garcia’s personal information from data stored on MCG’s systems. The
15 compromised information includes names, Social Security numbers, medical codes, postal
16 addresses, telephone numbers, email addresses, dates of birth, and gender.
17

18 234. In response to receiving the letter, Plaintiff Garcia has spent approximately four to
19 five hours reviewing accounts and looking for fraudulent activity.

20 235. Furthermore, Since February, 2020, she has noticed unauthorized charges on her
21 credit cards. She spent additional time addressing the charges and cancelling her cards.
22

23 236. Plaintiff Garcia paid for medical services with El Paso with the expectation that
24 her healthcare provider and its service providers, like MCG, would keep her information secure
25 and inaccessible from unauthorized parties.
26

1 237. Plaintiff Garcia suffers stress and anxiety as a result of the Data Breach and from
2 the loss of her privacy.

3 238. Plaintiff Garcia also suffered injury in the form of damage to and diminution in
4 the value of her confidential personal information—a form of property that Plaintiff entrusted to
5 MCG, which was compromised as a result of the Data Breach it failed to prevent.

6 239. Plaintiff Garcia suffers a present injury from the existing and continuing risk of
7 fraud, identity theft, and misuse resulting from her personal information—especially her Social
8 Security number and medical information—being placed in the hands of unauthorized third
9 parties. Plaintiff Garcia has a continuing interest in ensuring that her personal information is
10 protected and safeguarded from future breaches.
11

12 ***Plaintiff Marjorita Dean***

13 240. Plaintiff Dean is a patient of Sheltering Arms Hospital Foundation, Inc.
14 (“Sheltering Arms”), operating under OhioHealth O’Bleness Memorial Hospital. Plaintiff Dean
15 provided her personal and health information to Sheltering Arms in order to receive medical
16 services. MCG provides patient care guidelines to Sheltering Arms and received Plaintiff Dean’s
17 personal and health information in connection with providing those services.
18

19 241. Plaintiff Dean received a letter on or around June 16, 2022 from MCG concerning
20 the Data Breach. The letter stated that an unauthorized party obtained Plaintiff Dean’s personal
21 information from data stored on MCG’s systems. The compromised information includes names,
22 Social Security numbers, medical codes, postal addresses, telephone numbers, email addresses,
23 dates of birth, and gender.
24
25
26

1 242. Plaintiff Dean paid for medical services with the expectation that her healthcare
2 provider and its service providers, like MCG, would keep her information secure and
3 inaccessible from unauthorized parties.

4 243. Plaintiff Dean suffers stress and anxiety as a result of the Data Breach and from
5 the loss of her privacy, particularly stress about how the exfiltration of her private information
6 could impact her family business.

7 244. Plaintiff Dean also suffered injury in the form of damage to and diminution in the
8 value of her confidential personal information—a form of property that Plaintiff Dean entrusted
9 to MCG, which was compromised as a result of the Data Breach it failed to prevent.

10 245. Plaintiff Dean estimates that she spent approximately 5 hours researching the
11 Data Breach, checking her accounts, scrutinizing her records and credit scores, signing up for
12 identity theft protection through MCG and otherwise addressing the Data Breach.

13 246. Plaintiff Dean suffers a present injury from the existing and continuing risk of
14 fraud, identity theft, and misuse resulting from her personal information—especially her Social
15 Security number and medical information—being placed in the hands of unauthorized third
16 parties. Plaintiff Dean has a continuing interest in ensuring that her personal information is
17 protected and safeguarded from future breaches.

18
19
20 ***Plaintiff Julie Mack***

21 247. Plaintiff Mack is a patient of Dallas Medical Center. Patient provided her personal
22 and health information to Dallas Medical Center in order to receive medical services. MCG
23 provides patient care guidelines to Dallas Medical Center and received Plaintiff Mack’s personal
24 and health information in connection with providing those services.
25
26

1 248. Plaintiff Mack received a letter dated June 20, 2022 from MCG concerning the
2 Data Breach. The letter stated that an unauthorized party obtained Plaintiff Mack’s personal
3 information from data stored on MCG’s systems. The compromised information includes names,
4 Social Security numbers, medical codes, postal addresses, telephone numbers, email addresses,
5 dates of birth, and gender.

6 249. On August 23, 2022, Plaintiff Mack received an alert through McAfee that her
7 email address was found on the dark web.

8 250. Plaintiff Mack paid for medical services with the expectation that healthcare
9 provider and its service providers, like MCG, would keep her information secure and
10 inaccessible from unauthorized parties.

11 251. Plaintiff Mack suffers stress and anxiety as a result of the Data Breach and from
12 the loss of her privacy.

13 252. Plaintiff Mack also suffered injury in the form of damage to and diminution in the
14 value of her confidential personal information—a form of property that Plaintiff Mack entrusted
15 to MCG, which was compromised as a result of the Data Breach it failed to prevent.

16 253. Plaintiff Mack estimates that she spent approximately 30 hours researching the
17 Data Breach, looking over her accounts, scrutinizing her records and credit scores and otherwise
18 addressing the Data Breach.

19 254. Plaintiff Mack suffers a present injury from the existing and continuing risk of
20 fraud, identity theft, and misuse resulting from her personal information—especially her Social
21 Security number and medical information—being placed in the hands of unauthorized third
22
23
24
25
26

1 parties. Plaintiff Mack has a continuing interest in ensuring that her personal information is
2 protected and safeguarded from future breaches.

3 ***Plaintiff Joanne Mullins***

4 255. Plaintiff Mullins is a patient of Catholic Health Initiatives (“CHI”). Ms. Mullins
5 provided her personal and health information to CHI in order to receive medical services. MCG
6 provides patient care guidelines to CHI and its Affiliates, and received Plaintiff Mullin’s
7 personal and protected health information in connection with providing those services.
8

9 256. Plaintiff Mullins received a letter dated June 10, 2022 from MCG concerning the
10 Data Breach. The letter stated that an unauthorized party obtained Plaintiff Mullin’s personal
11 information from data stored on MCG’s systems. The compromised information includes names,
12 Social Security numbers, medical codes, postal addresses, telephone numbers, email addresses,
13 dates of birth, and gender.

14 257. On September 23, 2021, an unauthorized actor used Plaintiff Mullins’ email address
15 and PayPal account to charge \$375 for a denim jacket from a vendor called “Axel Arigato AB.”
16 Plaintiff Mullins did not make or authorize the charges
17

18 258. Since receiving the June 10, 2022 letter from MCG concerning the Data Breach,
19 Ms. Mullins has spent 3-5 hours attempting to mitigate the impact of the Data Breach.

20 259. Plaintiff Mullins paid for medical services with the expectation that her healthcare
21 provider and its service providers, including MCG, would keep her information secure and
22 inaccessible from unauthorized parties.
23

24 260. Plaintiff Mullins suffers stress and anxiety as a result of the Data Breach and from
25 the loss of her privacy.
26

1 interest, and Defendant’s officers, directors, legal representatives, successors, subsidiaries, and
2 assigns. Also excluded from the Class is any judge, justice, or judicial officer presiding over this
3 matter and members of their immediate families and judicial staff.

4 267. Plaintiffs reserve the right to modify, change, or expand the Class and Subclass
5 definitions, including by proposing additional subclasses, based on discovery and further
6 investigation.

7 268. Numerosity: The members of the Class are so numerous that joinder of all of them
8 is impracticable. While the exact number of Class Members is unknown to Plaintiffs at this time,
9 based on Defendant’s disclosures to State Attorneys general, the Class consists of approximately
10 1,100,000 individuals whose sensitive data was compromised in Data Breach.

11 269. Typicality: Plaintiffs’ claims are typical of the claims of the Class. Plaintiffs and
12 all members of the Class were injured through Defendant’s uniform misconduct. The same event
13 and conduct that gave rise to Plaintiffs’ claims are identical to those that give rise to the claims of
14 every other Class Member because Plaintiffs and each member of the Class had their sensitive
15 Private Information compromised in the same way by the same conduct of Defendant.

16 270. Adequacy: Plaintiffs are adequate representatives of the Class because Plaintiffs’
17 interests do not conflict with the interests of the Class they seek to represent; Plaintiffs have
18 retained counsel competent and highly experienced in data breach class action litigation; and
19 Plaintiffs and Plaintiffs’ counsel intend to prosecute this action vigorously. The interests of the
20 Class will be fairly and adequately protected by Plaintiffs and their counsel.

21 271. Superiority: A class action is superior to other alternatives for the fair and
22 efficient adjudication of this controversy. The injury suffered by each individual class member is
23
24
25
26

1 relatively small in comparison to the burden and expense of individual prosecution of complex
2 and expensive litigation. It would be very difficult, if not impossible, for members of the Class
3 individually to effectively redress Defendant's wrongdoing. Even if Class Members could afford
4 such individual litigation, the court system could not. Individualized litigation presents a
5 potential for inconsistent or contradictory judgments. Individualized litigation increases the delay
6 and expense to all parties, and to the court system, presented by the complex legal and factual
7 issues of the case. By contrast, the class action device presents far fewer management difficulties
8 and provides benefits of single adjudication, economy of scale, and comprehensive supervision
9 by a single court.
10

11 272. Commonality and Predominance: Defendant has engaged in a common course of
12 conduct toward Plaintiffs and Class Members, in that all the Plaintiffs' and Class Members' data
13 was stored on the same computer system and unlawfully accessed in the same way. The common
14 issues arising from Defendant's conduct affecting Class Members set out below predominate
15 over any individualized issues. Adjudication of these common issues in a single action has
16 important and desirable advantages of judicial economy.
17

18 273. There are many questions of law and fact common to the claims of Plaintiffs and
19 the other members of the Class, and those questions predominate over any questions that may
20 affect individual members of the Class. Common questions for the Class include:
21

- 22 a. Whether Defendant engaged in the wrongful conduct alleged herein;
- 23 b. Whether Defendant failed to adequately safeguard Plaintiffs' and Class
24 Members' Private Information;

- 1 c. Whether Defendant's computer systems and data security practices used to
2 protect Plaintiffs' and Class Members' Private Information violated the
3 FTC Act and/or HIPAA, and/or state laws and/or Defendant's other duties
4 discussed herein;
- 5 d. Whether Defendant owed a duty to Plaintiffs and Class Members to
6 adequately protect their Private Information, and whether it breached this
7 duty;
- 8 e. Whether Defendant knew or should have known that its computer and
9 network security systems were vulnerable to a data breach or disclosure;
- 10 f. Whether Defendant's conduct, including its failure to act, resulted in or was
11 the proximate cause of the Data Breach;
- 12 g. Whether Defendant breached contractual duties regarding Plaintiffs and
13 Class Members to use reasonable care in protecting their Private
14 Information;
- 15 h. Whether Defendant failed to adequately respond to the Data Breach,
16 including failing to investigate it diligently and notify affected individuals
17 in the most expedient time possible and without unreasonable delay, and
18 whether this caused damages to Plaintiffs and Class Members;
- 19 i. Whether Plaintiffs and Class Members suffered injury as a proximate result
20 of Defendant's negligent actions or failures to act;
- 21 j. Whether Plaintiffs and Class Members are entitled to recover damages,
22 equitable relief, and other relief;
- 23 k. Whether injunctive relief is appropriate and, if so, what injunctive relief is
24 necessary to redress the imminent and currently ongoing harm faced by
25 Plaintiffs and Class Members;
- 26

1 278. By collecting and storing this data in its computer property, and sharing it, and
2 using it for commercial gain, Defendant assumed a duty of care to use reasonable means to
3 secure and safeguard their computer property—and Class Members' Private Information held
4 within it—to prevent disclosure of the information, and to safeguard the information from theft.
5 Defendant's duty included a responsibility to implement processes by which it could detect a
6 breach of their security systems in a reasonably expeditious period of time and to give prompt
7 notice to those affected in the case of a Data Breach.
8

9 279. Defendant owed a duty of care to Plaintiffs and Class Members to provide data
10 security consistent with industry standards and other requirements discussed herein, and to
11 ensure that its systems and networks, and the personnel responsible for them, adequately
12 protected the Private Information.

13 280. Defendant's duty to use reasonable security measures under HIPAA required
14 Defendant to "reasonably protect" confidential data from "any intentional or unintentional use or
15 disclosure" and to "have in place appropriate administrative, technical, and physical safeguards
16 to protect the privacy of protected health information." 45 C.F.R. § 164.530(c)(1). Some or all of
17 the healthcare and/or medical information at issue in this case constitutes "protected health
18 information" within the meaning of HIPAA.
19

20 281. Additionally, Defendant had a duty to promptly and adequately notify Plaintiffs
21 and the Class of the Data Breach. For instance, HIPAA required Defendant to notify victims of
22 the Breach within 60 days of the discovery of the Data Breach. Defendant did not begin to
23 notify Plaintiffs or Class Members of the Data Breach until June 10, 2022, despite knowing by
24
25
26

1 March 25, 2022 that unauthorized persons had accessed and acquired the private, protected,
2 personal information of Plaintiffs and the Class.

3 282. In addition, Defendant had a duty to employ reasonable security measures under
4 Section 5 of the FTC Act, 15 U.S.C. § 45, which prohibits "unfair ... practices in or affecting
5 commerce," including, as interpreted and enforced by the FTC, the unfair practice of failing to
6 use reasonable measures to protect confidential data.

7
8 283. Defendant's conduct, as alleged herein, allowed it to gain a competitive advantage
9 over companies offering the same or similar services because, rather than properly fund data
10 security protocols, as required by HIPAA and industry standards, Defendant diverted that money
11 towards its own profit. Defendant's conduct, and the unfair advantage realized thereby, creates a
12 race to the bottom by encouraging companies to divert funds intended for data security towards
13 profits in order to remain competitive. The end effect is that both consumers and the marketplace
14 in general are harmed through the widespread adoption of substandard data security practices
15 and the concomitantly increased risk of cyberattacks (which disrupt the provision of medical
16 services) and fraud and identity theft (which disrupt the lives of victims and impose a burden on
17 the state to investigate and prevent criminal activity).

18
19 284. Plaintiffs and the Class are within the class of persons that the FTC Act and
20 HIPAA were intended to protect.

21 285. The harm that occurred as a result of the Data Breach is the type of harm the FTC
22 Act and HIPAA were intended to guard against. The FTC has pursued enforcement actions
23 against businesses, which, as a result of their failure to employ reasonable data security measures
24
25
26

1 and avoid unfair and deceptive practices, caused the same harm as that suffered by Plaintiffs and
2 the Class.

3 286. Defendant gathered and stored the Private Information of Plaintiffs and Class
4 Members as part of its business of soliciting its services to its clients and its clients' patients,
5 which solicitations and services affect commerce.

6 287. Defendant violated the FTC Act by failing to use reasonable measures to protect
7 the Private Information of Plaintiffs and Class Members and by not complying with applicable
8 industry standards, as described herein. Defendant's failure to use reasonable data security
9 measures allows it to gain an unfair advantage over its competitors, realize greater profits, and
10 harms both Defendant's immediate competition and the marketplace in general.

11 288. Defendant breached its duties to Plaintiffs and Class Members under the FTC Act
12 and HIPAA by failing to provide fair, reasonable, or adequate computer systems and/or data
13 security practices to safeguard Plaintiffs' and Class Members' Private Information, and by
14 failing to provide prompt notice without reasonable delay.

15 289. Defendant's duty to use reasonable care in protecting confidential data arose not
16 only as a result of the statutes and regulations described above, but also because Defendant is
17 bound by industry standards to protect confidential Private Information.

18 290. Defendant had full knowledge of the sensitivity of the Private Information, the
19 types of harm that Plaintiffs and Class Members could and would suffer if the Private
20 Information was wrongfully disclosed, and the importance of adequate security.

21 291. Plaintiffs and Class Members were the foreseeable victims of any inadequate
22 safety and security practices. Plaintiffs and the Class members had no ability to protect their
23
24
25
26

1 Private Information that was in Defendant's possession. As a result of Defendant's assumption of
2 control over their Private Information, Plaintiffs and Class Members were totally unable to
3 protect themselves against the risk of a cyberattack and were completely dependent on
4 Defendant to ensure that their Private Information was secured against a targeted data breach, as
5 occurred here.

6 292. By collecting and taking custody of Plaintiffs and Class Members' Private
7 Information with full awareness of both the likelihood of a cyberattack targeted to acquire that
8 information and the severe consequences that would result to Plaintiffs and Class Members if the
9 confidentiality of the Private Information was breached, Defendant assumed a special
10 relationship that required it to guard against the foreseeable conduct of a criminal third party. If
11 Defendant had not intervened by taking charge of Plaintiffs' and Class Member's Private
12 Information, no harm would have resulted to Plaintiffs and Class Members as a result of the Data
13 Breach.
14

15 293. By taking charge of and assuming custody over the Private Information to which
16 it was entrusted, Defendant was required to supervise the integrity of its data security systems
17 and the information stored therein. Defendant was fully aware of the identity of each individual
18 for whom it custodied Private Information and was further aware that it was in an exclusive
19 position to guard against the harm that would result to those individuals if it failed to guard
20 against a cyberattack.
21

22 294. Defendant was in a special relationship with Plaintiffs and Class Members with
23 respect to the hacked information because the aim of Defendant's data security measures was to
24 benefit Plaintiffs and Class Members by ensuring that their personal information would remain
25
26

1 protected and secure. Only Defendant was in a position to ensure that its systems were
2 sufficiently secure to protect Plaintiffs' and Class Members' personal and medical information.
3 Plaintiffs and Class Members had no ability to influence Defendant's data security policies or
4 verify the integrity of those policies and practices. The harm to Plaintiffs and Class members
5 from its exposure was highly foreseeable to Defendant.

6 295. As a result of the special relationship, Defendant owed Plaintiffs and Class
7 Members a common law duty to use reasonable care to avoid causing foreseeable risk of harm to
8 Plaintiffs and the Class when obtaining, storing, using, and managing their Private Information,
9 including taking action to reasonably safeguard such data and providing notification to Plaintiffs
10 and the Class Members of any breach in a timely manner so that appropriate action could be
11 taken to minimize losses.

12 296. Defendant's duty extended to protecting Plaintiffs and the Class from the risk of
13 foreseeable criminal conduct of third parties, which has been recognized in situations where the
14 actor's own conduct or misconduct exposes another to the risk or defeats protections put in place
15 to guard against the risk, or where the parties are in a special relationship. See Restatement
16 (Second) of Torts § 302B. Numerous courts and legislatures have also recognized the existence
17 of a specific duty to reasonably safeguard personal information.

18 297. Defendant had duties to protect and safeguard the Private Information of Plaintiffs
19 and the Class from being vulnerable to compromise by taking common-sense precautions when
20 dealing with sensitive Private Information. Additional duties that Defendant owed Plaintiffs and
21 the Class include:
22
23
24
25
26

- 1 a. To exercise reasonable care in designing, implementing, maintaining, monitoring,
2 and testing Defendant' networks, systems, protocols, policies, procedures and
3 practices to ensure that Plaintiffs' and Class members' Private Information was
4 adequately secured from impermissible release, disclosure, and publication;
5 b. To protect Plaintiffs' and Class Members' Private Information in its possession by
6 using reasonable and adequate security procedures and systems; and
7
8 c. To promptly notify Plaintiffs and Class Members of any breach, security incident,
9 unauthorized disclosure, or intrusion that affected or may have affected their
10 Private Information.

11 298. Only Defendant was in a position to ensure that its systems and protocols were
12 sufficient to protect the Private Information that had been entrusted to them.

13 299. Defendant breached its duties of care by failing to adequately protect Plaintiffs'
14 and Class Members' Private Information. Defendant breached its duties by, among other things:

- 15 a. Failing to exercise reasonable care in obtaining, retaining, securing, safeguarding,
16 protecting, and deleting the Private Information in its possession;
17
18 b. Failing to protect the Private Information in its possession using reasonable and
19 adequate security procedures and systems;
20
21 c. Failing to adequately and properly audit, test, and train its employees regarding
22 how to properly and securely transmit and store Private Information;
23
24 d. Failing to adequately train its employees to not store unencrypted Private
25 Information in their personal files longer than absolutely necessary for the
26 specific purpose that it was sent or received;

- e. Failing to consistently enforce security policies aimed at protecting Plaintiffs' and Class Members' Private Information;
- f. Failing to mitigate the harm caused to Plaintiffs and the Class Members;
- g. Failing to implement processes to quickly detect data breaches, security incidents, or intrusions; and
- h. Failing to promptly notify Plaintiffs and Class Members of the Data Breach that affected their Private Information.

300. Defendant's willful failure to abide by these duties was wrongful, reckless, and grossly negligent in light of the foreseeable risks and known threats.

301. As a proximate and foreseeable result of Defendant's grossly negligent conduct, Plaintiffs and Class Members have suffered damages and are at imminent risk of additional harms and damages (as alleged above).

302. Through Defendant's acts and omissions described herein, including but not limited to Defendant's failure to protect the Private Information of Plaintiffs and Class Members from being stolen and misused, Defendant unlawfully breached its duty to use reasonable care to adequately protect and secure the Private Information of Plaintiffs and Class Members while it was within Defendant's possession and control.

303. Further, through its failure to provide timely and clear notification of the Data Breach to Plaintiffs and Class Members, Defendant prevented Plaintiffs and Class Members from taking meaningful, proactive steps to securing their Private Information and mitigating damages.

1 304. As a result of the Data Breach, Plaintiffs and Class Members have spent time,
2 effort, and money to mitigate the actual and potential impact of the Data Breach on their lives,
3 including but not limited to, responding to the fraudulent use of the Private Information, and
4 closely reviewing and monitoring bank accounts, credit reports, and statements sent from
5 providers and their insurance companies.

6 305. Defendant’s wrongful actions, inaction, and omissions constituted (and continue
7 to constitute) common law negligence.

8 306. The damages Plaintiffs and the Class have suffered (as alleged above) and will
9 suffer were and are the direct and proximate result of Defendant’s grossly negligent conduct.

10 307. Plaintiffs and the Class have suffered injury and are entitled to actual damages in
11 amounts to be proven at trial.

12
13 **COUNT II**
14 **VIOLATION OF THE WASHINGTON CONSUMER PROTECTION ACT**
15 **RCW 19.86.010, et seq.,**
16 **(On behalf of Plaintiffs and the Class)**

17 308. Plaintiffs incorporate by reference the foregoing allegations of fact as if fully set
18 forth herein.

19 309. The Washington State Consumer Protection Act, RCW 19.86.020 (the “CPA”)
20 prohibits any “unfair or deceptive acts or practices” in the conduct of any trade or commerce as
21 those terms are described by the CPA and relevant case law.

22 310. Defendant is a “person” as described in RWC 19.86.010(1).

23 311. Defendant engages in “trade” and “commerce” as described in RWC 19.86.010(2)
24 in that they engage in the sale of services and commerce directly and indirectly affecting the
25 people of the State of Washington.

1 312. By virtue of the above-described wrongful actions, inaction, omissions, and want
2 of ordinary care that directly and proximately caused the Data Breach, Defendant engaged in
3 unlawful, unfair and fraudulent practices within the meaning, and in violation of, the CPA, in
4 that Defendant’s practices were injurious to the public interest because they injured other
5 persons, had the capacity to injure other persons, and have the capacity to injure other persons.

6 313. In the course of conducting their business, Defendant committed “unfair or
7 deceptive acts or practices” by, inter alia, knowingly failing to design, adopt, implement, control,
8 direct, oversee, manage, monitor and audit appropriate data security processes, controls, policies,
9 procedures, protocols, and software and hardware systems to safeguard and protect Plaintiffs’
10 and Class Members’ Private Information, and violating the common law alleged herein in the
11 process. Plaintiffs and Class Members reserve the right to allege other violations of law by
12 Defendant constituting other unlawful business acts or practices. As described above,
13 Defendant’s wrongful actions, inaction, omissions, and want of ordinary care are ongoing and
14 continue to this date.

15 314. Defendant also violated the CPA by failing to timely notify and concealing from
16 Plaintiffs and Class Members information regarding the unauthorized release and disclosure of
17 their Private Information. If Plaintiffs and Class Members had been notified in an appropriate
18 fashion, and had the information not been hidden from them, they could have taken precautions
19 to safeguard and protect their Private Information, medical information, and identities.

20 315. Defendant’s above-described wrongful actions, inaction, omissions, want of
21 ordinary care, misrepresentations, practices, and non-disclosures also constitute “unfair or
22 deceptive acts or practices” in violation of the CPA in that Defendant’s wrongful conduct is
23
24
25
26

1 substantially injurious to other persons, had the capacity to injure other persons, and has the
2 capacity to injure other persons.

3 316. The gravity of Defendant’s wrongful conduct outweighs any alleged benefits
4 attributable to such conduct. There were reasonably available alternatives to further Defendant’s
5 legitimate business interests other than engaging in the above-described wrongful conduct.

6 317. As a direct and proximate result of Defendant’s above-described wrongful
7 actions, inaction, omissions, and want of ordinary care that directly and proximately caused the
8 Data Breach and their violations of the CPA, Plaintiffs and Class Members have suffered, and
9 will continue to suffer, economic damages and other injury and actual harm in the form of, inter
10 alia, (1) an imminent, immediate and the continuing increased risk of identity theft, identity fraud
11 and medical fraud—risks justifying expenditures for protective and remedial services for which
12 they are entitled to compensation; (2) invasion of privacy; (3) breach of the confidentiality of
13 their Private Information; (5) deprivation of the value of their Private Information, for which
14 there is a well-established national and international market; and/or (6) the financial and
15 temporal cost of monitoring credit, monitoring financial accounts, and mitigating damages.
16

17 318. Unless restrained and enjoined, Defendant will continue to engage in the above-
18 described wrongful conduct and more data breaches will occur. Plaintiffs, therefore, on behalf of
19 themselves and the Class, seek restitution and an injunction prohibiting Defendant from
20 continuing such wrongful conduct, and requiring Defendant to design, adopt, implement, control,
21 direct, oversee, manage, monitor and audit appropriate data security processes, controls, policies,
22 procedures protocols, and software and hardware systems to safeguard and protect the Private
23 Information entrusted to it.
24
25
26

1 325. Because Defendant was aware of a breach of its security system that was
2 reasonably likely to have caused misuse of Plaintiff's and Kansas Subclass members' Personal
3 Information, it was required to disclose the data breach in a timely and accurate fashion under
4 Kan. Stat. Ann. § 50- 7a02(a).

5 326. By failing to disclose the data breach in a timely and accurate manner, Defendant
6 violated Kan. Stat. Ann. § 50-7a02(a).

7 327. As a direct and proximate result of Defendant's violations of Kan. Stat. Ann. §
8 50-7a02(a), Plaintiff and Kansas Subclass members suffered damages, as described above.

9 328. Plaintiff and Kansas Subclass members seek relief under Kan. Stat. Ann. § 50-
10 7a02(g), including equitable relief.

11
12 **COUNT IV**
13 **VIOLATION OF THE LOUISIANA DATABASE SECURITY BREACH**
14 **NOTIFICATION LAW**
15 **La. Rev. Stat. Ann. §§ 51:3074(A), et seq.**
16 **(On behalf of Plaintiff Ictech and the Louisiana Subclass)**

17 329. Plaintiff Ictech re-alleges and incorporates by reference all preceding factual
18 allegations as if fully set forth herein.

19 330. Plaintiff Ictech ("Plaintiff" for the purposes of this Count) bring this Count on her
20 own behalf and on behalf of the Louisiana Subclass.

21 331. Defendant is a business that owns or licenses computerized data that includes
22 Personal Information as defined by La. Rev. Stat. Ann. § 51:3074(C).

23 332. Plaintiff's and Louisiana Subclass members' PII includes Personal Information as
24 covered under La. Rev. Stat. Ann. § 51:3074(C).

- 1 b. A judgment in favor of Plaintiffs and the Class and Subclasses awarding them
2 appropriate monetary relief, including actual damages, treble damages, attorney
3 fees, expenses, costs, and such other and further relief as is just and proper;
4 c. An order providing injunctive and other equitable relief as necessary to protect the
5 interests of the Class and Subclasses as requested herein;
6 d. An order requiring Defendant to pay the costs involved in notifying the Class
7 Members about the judgment and administering the claims process;
8 e. A judgment in favor of Plaintiffs and the Class and Subclasses awarding them pre-
9 judgment and post-judgment interest, reasonable attorneys' fees, costs and
10 expenses as allowable by law; and
11 f. An award of such other and further relief as this Court may deem just and proper.

12
13 **DEMAND FOR JURY TRIAL**

14 Plaintiffs hereby demand a trial by jury on all appropriate issues raised in this Class

15 Action Complaint.
